Dear Hiring Manager,

With 9+ years in BFSI credit underwriting and portfolio risk, I bring strong retail asset lending expertise across Commercial Vehicles, Construction Equipment, Home Loans, LAP, and LAS. My background spans AVP-level underwriting at YES Bank and earlier roles at HDFC, Axis Bank, and L&T Financial Services, where consistent policy-first decisions supported healthy portfolio growth and delinquency control.

In my current role, I lead underwriting for CV and CE assets across key hubs, combining financial statement, ratio, and cash-flow analysis with collateral viability checks to structure risk-aware approvals. I manage and mentor a 6-member credit team, uphold audit readiness, and drive mitigation through delinquency reviews. Prior to this, I owned NRI/Gulf mortgage portfolios at HDFC, applying risk-based pricing and due-diligence coordination with legal and technical teams to protect asset quality while sustaining high service levels.

Beyond core underwriting, I have delivered operational transformation. At L&T Financial Services, I spearheaded digitization of collections and sales workflows across 33 branches, improving lead capture and lifting productivity by 50%. This mindset of improving systems, tightening credit governance, and enabling frontline teams would translate well to UAE/GCC retail lending environments that value speed, compliance, and portfolio resilience.

I am now seeking UAE-based opportunities in credit underwriting, retail asset risk, or portfolio management where disciplined credit assessment and data-driven decisioning can strengthen growth with control. I would welcome the chance to discuss how my underwriting leadership, Gulf/NRI exposure, and transformation track record can support your lending goals.

Sincerely,
Sai Akhil Gorti
