Dear Hiring Manager,

I am writing to apply for the Retail Banking Branch Manager position in Germany. With 5+ years of experience at Canara Bank (a leading public sector bank) across branch operations, retail/MSME credit underwriting, and regulatory compliance, I have led end-to-end branch performance spanning deposits, lending, service delivery, audit readiness, and operational risk controls. I am open to relocating to Germany and bring German language proficiency at B1 level, along with full professional English proficiency.

In my current role as **Bank Branch Manager**, I lead daily branch delivery and ensure strong control discipline across cash/teller operations, SOP adherence, documentation governance, and customer service standards. I manage credit approval workflows for retail and MSME loans, covering KYC/AML checks, customer due diligence, appraisal, documentation review, and compliant disbursements, while maintaining audit-ready processes. Recently, I contributed to **12% portfolio growth**, improved **CSAT by 15%**, and ensured swift escalation handling by resolving priority issues within **48 hours** through structured complaint management and team coaching.

Previously, as a **Bank Officer**, I supported branch targets by managing deposit growth and executing lending cycles across retail, MSME, and agriculture segments. I strengthened process quality by introducing practical checklists and verification steps that **reduced documentation exceptions by 25%** and improved turnaround time by **15%**. I also monitored repayments and supported recovery actions for stressed accounts, improving overdue resolution through disciplined follow-up, customer engagement, and timely escalation. This blend of business development, risk awareness, and operational excellence has shaped my ability to deliver growth without compromising compliance.

I offer a hands-on leadership style, strong stakeholder management, and a structured approach to governance, particularly in KYC/AML, audit readiness, and documentation controls. I am confident I can bring measurable impact to your branch network through improved service quality, portfolio performance, and control adherence. I would welcome the opportunity to discuss how my experience aligns with your branch growth and compliance priorities in Germany.

Sincerely,
Sonu Vijay
