Summary

Technical CRM & Marketing Automation Consultant with 5 years of experience designing and implementing omnichannel CRM ecosystems, event-driven automation workflows, and REST-based integrations across insurance and ecommerce enterprises. Specialized in campaign orchestration, behavioral segmentation, API integrations, and KPI-driven optimization using CleverTap, Adobe Campaign, Netcore, and AJO. Proven ability to align marketing automation strategy with revenue growth, retention uplift, and regulatory compliance across enterprise-scale CRM ecosystems.

Technical Expertise

- **CRM Campaign Engineering:** Custom HTML email template development, dynamic content rendering, personalization logic configuration and reusable campaign framework design.
- **Marketing Automation & Journey Orchestration:** Omnichannel automation across Email, SMS, Push, Web and WhatsApp; behavioral trigger configuration, frequency control and conversion tracking logic.
- **Platforms & Tools:** CleverTap, Netcore, Adobe Campaign Standard, Adobe Journey Optimizer (AJO), MoEngage and Firebase.
- **Data Engineering, Integrations & Governance:** Event tracking architecture, REST API and Webhook integrations, JSON payload configuration, server-side data synchronization, SFTP-based data migration, workflow validation, defect tracking and controlled production deployment.
- **Performance Optimization & Analytics:** A/B testing, CTR and conversion optimization, KPI monitoring, ROI reporting and dashboard development using Advanced Excel and BI tools.

Experience

DWAO

February 2021 – Present

Senior Associate | April 2025 – Present

India

- Designed and executed multi-channel CRM campaigns across Email, SMS, WhatsApp, Push and RCS using CleverTap, Netcore, MoEngage and Adobe Campaign, driving scalable omnichannel customer engagement.
- Engineered automated customer journeys by defining event tracking taxonomy for web and mobile applications and configuring behavioral triggers to enable precise segmentation and real-time activation.
- Designed and implemented REST-based CRM integrations including API configurations, webhook setups and structured payload mapping to ensure reliable bidirectional data synchronization.
- Led integration validation and release governance by testing event transmission accuracy, resolving API failures and coordinating controlled promotion from staging to production environments.
- Developed reusable HTML email templates with dynamic content rendering and improved engagement performance by 20 % through structured A/B testing and KPI-driven campaign optimization.

Associate | February 2021 – April 2025

India

- Executed lifecycle marketing campaigns across Email, SMS, WhatsApp and Push channels using CleverTap and MoEngage platforms.
- Configured audience segmentation, behavioral triggers and automated workflows to support onboarding, re engagement and promotional campaigns.
- Conducted A/B testing on campaign content, timing and delivery methods to identify performance improvement opportunities.
- Analyzed campaign performance metrics including open rate, click through rate, conversion rate and retention indicators to support KPI achievement.
- Collaborated with marketing, product and analytics teams to align campaign execution with defined business objectives.

Project

Leading Insurance Enterprise

February 2023 - Present

Senior Marketing Automation Consultant

India

- Implemented enterprise CRM lifecycle strategies across Email, SMS, Push, WhatsApp and RCS by designing behavior-based automation workflows and structured customer journey orchestration.
- Established CRM infrastructure including event tracking architecture, automation workflows, personalization logic and REST-based integrations to support scalable real-time data synchronization.
- Transformed behavioral CRM engagement data into actionable datasets to support sales outreach prioritization and improve lead qualification effectiveness.
- Increased campaign engagement by 25 % and improved conversion rates by 18 % through structured A/B testing and KPI-driven performance optimization.

Multinational Home Appliance Manufacturer, Hong Kong

July 2022 - February 2023

QA Tester/ Analyst

India

- Supported structured data migration from enterprise server systems to Adobe Campaign Standard using secure SFTP transfer protocols.
- Validated campaign workflows, audience segmentation logic and delivery configurations through formal User Acceptance Testing cycles aligned with business requirements.
- Documented and tracked defects, coordinated resolution with technical teams and ensured stable deployment of campaign releases.
- Reduced post deployment defects by 30 % through structured test case validation and quality assurance governance.

Automotive E-Commerce Platform

May 2021 - July 2022

Analyst

India

- Conducted stakeholder workshops to gather automation requirements and translated business needs into structured Business Requirement Documents.
- Configured end to end lifecycle campaigns including segmentation logic, goal definition and workflow automation to enhance customer engagement.
- Developed performance dashboards and conducted customer data analysis to monitor engagement, retention and growth indicators.
- Improved reporting accuracy by 20 % through structured data validation and KPI standardization processes.
