- **Stakeholder Engagement:** Stakeholder Communication, Cross Functional Coordination
- **Tools and Platforms:** MS Office, VPN Tools, Remote Desktop Management

Experience

Arcane Softwares

March 2016 - June 2022

Business Analyst

Karnataka, India

- Analyzed business requirements and converted them into functional specifications, use case diagrams and process workflows for development teams.
- Facilitated stakeholder discussions to finalize data sourcing attributes, validation rules and acceptance criteria.
- Reviewed and validated QA test cases, supporting functional, regression and user acceptance testing cycles to ensure solution accuracy.
- Managed defect lifecycle including logging, prioritization, root cause coordination and status reporting to stakeholders.
- Drove process improvements within the team, reducing requirement clarification cycles by 20 percent.

HP Global Soft Pvt Ltd

July 2012 - November 2014

Technical Business Analyst/Technical Solutions Analyst

Karnataka, India

- Conducted structured requirements workshops with business stakeholders and SMEs to define regulatory reporting specifications and data transformation rules.
- Collaborated within cross functional team of 8 members including developers, QA analysts and SMEs to deliver regulatory reporting enhancements.
- Developed BRD, FSD and TSD documentation ensuring end to end traceability across SDLC phases and technical alignment with development teams.
- Executed data mapping activities and translated business logic into Informatica PowerCenter ETL specifications to support accurate regulatory submissions.
- Coordinated UAT cycles including defect triage, prioritization and stakeholder communication, achieving 95 percent defect resolution before production deployment.
