Dear Hiring Manager,

I am writing to express my interest in Workplace Experience, Facilities Management, or Operations Leadership opportunities within your organization. With over 12 years of international experience across India, the United Kingdom, and the United States. I bring a strong track record of leading multi-site workplace operations, driving cost optimization, and delivering employee-centric environments aligned with strategic business goals. I am currently based in India and fully open to relocating to Germany.

Throughout my career, I have led enterprise-level workplace and facilities functions across technology, corporate, healthcare, and hospitality sectors. In my recent leadership roles, I directed multi-region operations, implemented KPI- and SLA-driven vendor governance models, and strengthened compliance frameworks. I successfully reduced operating costs, improved service quality metrics, and increased employee satisfaction through structured engagement programs and standardized SOP implementation. My experience spans workplace strategy, lease management, infrastructure oversight, HSE compliance, business continuity, and executive stakeholder support.

Beyond operational excellence, I am deeply committed to enhancing employee experience and organizational culture. I have led onboarding optimization initiatives, accelerated hiring cycles, strengthened retention through engagement programs, and delivered high-quality corporate services including events, hospitality, and VIP management. My leadership approach combines data-driven decision-making with people-focused execution, ensuring both measurable performance improvement and strong team alignment.

With professional fluency in English and working proficiency in German, I am well-prepared to integrate into international teams and contribute effectively in a German business environment. I would welcome the opportunity to bring my global workplace leadership experience, operational rigor, and strategic mindset to your organization and support scalable, compliant, and high-performing workplace environments.

Sincerely,

Niharika Canakapalli
