Dear Hiring Manager,

I am applying for the Retail Area Manager (Gebietsleiter) position. I have 15+ years of experience in multi-store retail operations across footwear, fashion accessories, and consumer electronics, with a strong focus on KPI governance, operational compliance, inventory accuracy, and people leadership. I am currently based in Bengaluru, India, and relocating to Germany. My target markets are Munich, Berlin, and Hamburg.

In my current role as Area Sales Manager at Bata India Limited, I lead company-owned and operated (COCO) stores across Bengaluru and the Rest of Karnataka region. I run a structured KPI cadence using Power BI and Excel and coach 18 Store Managers through audits, action plans, and day-to-day execution. In 2025, my portfolio delivered €4.74M annual turnover with +5% like-to-like (LTL) growth by improving conversion, category performance, and store discipline. Alongside performance delivery, I also support business expansion through property scouting, lease negotiations, relocations, and hiring teams for new or moved locations.

Previously, with Accessorize London (Planet Retail Holdings), I managed end-to-end operations for a 12-store network across South and East India, covering SOP audits, visual merchandising standards, replenishment routines, and shrink control. Across my roles as Area Manager and Store Manager, I built and stabilized store teams through hiring, training, and performance coaching - while ensuring audit readiness and consistent store standards. Earlier in my career, I also led retail operations in consumer electronics (Logitech) and solution-led selling (Apple reseller / Nokia), which strengthened my customer-facing execution and service quality focus.

I bring a practical, process-driven management style: clear KPI tracking, consistent store visits, coaching-based leadership, and disciplined execution of standards. I am confident I can contribute to reliable performance delivery, strong compliance, and high customer experience across your store network in Germany.

I would welcome the opportunity to discuss how my multi-store operations experience fits your requirements. Thank you for your time and consideration.

Kind regards,
Syed Ismail
