Dear Hiring Manager,

I am writing to express my strong interest in a finance and accounting position within your organization, bringing over 17 years of comprehensive experience in the field. My professional background includes managing day-to-day accounting, bookkeeping, and financial operations with a strict focus on accuracy and statutory compliance. I am eager to apply my extensive expertise to contribute to the seamless financial management of your esteemed team.

During my tenure at Resolux India and Grace Services, I successfully oversaw GST and TDS reporting while ensuring 100% adherence to all filing requirements. I optimized cash flow by managing healthy accounts receivable and payable cycles and efficiently handled inward remittances for diverse business entities. My experience also includes specializing in GST return filing for Forms 1, 3B, and 9 while providing critical audit support and financial statement preparation.

My technical proficiency is anchored in Tally ERP 9 and Tally Prime, complemented by advanced skills in MS Excel and MS Access with VBA automation. I have a proven track record in conducting Bank Reconciliation (BRS), executing month-end closing activities, and maintaining precise general ledger accounts. These technical skills, combined with my detail-oriented approach, allow me to handle complex financial record maintenance in fast-paced professional environments.

I am currently pursuing my ICAI Final Level qualification, which further strengthens my analytical and problem-solving capabilities in accounting and taxation. Thank you for your time and for considering my application to join your organization as a Finance Executive. I look forward to the opportunity to discuss how my 17-year career and dedication to financial excellence can help meet your company's objectives.

Sincerely,

M. Ignatius Irudhayaraj
