Summary

Senior Disaster Recovery and Business Continuity professional with 10 years of experience across banking and global consulting environments. Lead enterprise disaster recovery lifecycle across data center and cloud platforms including Azure and AWS. Own recovery planning, runbook governance, testing execution, risk analysis, and major incident coordination for mission critical applications. Partner with application owners and infrastructure teams to strengthen operational resilience, reduce downtime, and improve recovery readiness. ITIL certified with strong foundation in IT service management and cloud migration support.

Core Skills

- **Disaster Recovery and Business Continuity:** Business Impact Analysis (BIA), Criticality Assessment, Disaster Recovery Planning (DRP), Business Continuity Planning (BCP), Recovery Time Objective (RTO), Recovery Point Objective (RPO), Runbook Development and Governance, DR Testing and Simulation, Data Center and Cloud Recovery, Operational Resilience
- **IT Service Management:** Major Incident Management (P1/P2), Problem Management, Change Management, Root Cause Analysis (RCA), ServiceNow, Remedy
- **Cloud and Infrastructure:** Microsoft Azure, Amazon Web Services (AWS), Azure Migration Support, Hybrid Infrastructure, Active Directory, Office 365, SAP Logon PAD, PKI and Encryption
- **Monitoring and Observability:** Dynatrace, SCOM, Zabbix, Application and Server Monitoring, Alert Configuration, Event Escalation
- **Reporting and Analytics:** Tableau Dashboards, KPI Reporting, Risk Reporting, Stakeholder Communication

Experience

KPMG Global Solutions Pvt Ltd

May 2025 - Present

Disaster Recovery Manager

India

- Lead end to end disaster recovery planning for enterprise applications across Azure, AWS, and data center environments
- Govern annual DR test calendar for applications ensuring updated runbooks, architecture diagrams, dependency mapping, and recovery procedures
- Coordinate cross functional DR simulations with infrastructure, network, database, and security teams to validate RTO and RPO targets
- Drive risk identification and vulnerability assessments to strengthen resilience posture and improve recovery readiness

Coforge India Pvt Ltd

April 2024 - April 2025

Disaster Recovery Manager

India

- Directed DR lifecycle management for mission critical business applications supporting global operations
- Established standardized runbook templates improving recovery documentation consistency by percent
- Partnered with cloud engineering teams during Azure and AWS migration to design cloud native recovery procedures
- Monitored application health using Dynatrace, SCOM, and Zabbix to forecast potential failures and initiate preventive actions

Wells Fargo International Pvt Ltd

June 2020 - April 2024

Associate Vice President

India

- Owned and governed Disaster Recovery for enterprise and infrastructure applications aligned with Business Impact Analysis and RTO/RPO objectives.
- Planned and executed DR drills, tabletop exercises and failover testing as per annual resilience schedule.
- Acted as DR Governance SPOC during audits and tracked DR risks and remediation plans for senior leadership.
- Managed third-party DR vendors and SLAs ensuring contractual compliance.

Aaxeleron Technologies

February 2019 - March 2020

Technical Consultant

Bengaluru, Karnataka

- Managed Disaster Recovery plans for critical applications to minimize downtime.
- Identified risks and vulnerabilities and implemented mitigation strategies.
- Coordinated annual DR activities with application owners ensuring timely execution.
- Led DR testing calls ensuring completion within approved change windows.

NTT DATA (FORMERLY DELL)

June 2017 - November 2018

Client Technical Associate

Bengaluru, Karnataka

- Updated runbooks, architecture diagrams and test cases to ensure documentation accuracy.
- Managed DR planning calls and ensured runbook readiness, documenting lessons learned after DR tests.
- Coordinated DR tests and ensured successful execution.

Infosys Pvt Ltd

March 2016 - April 2017

Process Associate

India

- Executed broadband and telephone line testing across 500+ service tickets monthly using structured diagnostic protocols to ensure service reliability and fault isolation
- Analyzed CRM and E commerce workflows, identified test scenarios, and validated requirement traceability matrices to support defect detection and system stability
- Identified and resolved 90% of reported line faults within SLA by performing root cause analysis and coordinated escalation with technical teams

Concentrix

September 2015 - March 2016

Process Associate

India

- Handled 60+ customer interactions daily for E commerce platform, resolving purchase and transaction issues through structured troubleshooting
- Improved customer resolution rate to 95% by driving end to end issue ownership and proactive follow up communication
- Documented recurring customer issues and contributed to knowledge base updates to reduce repeat support tickets by 15%

Education

PSV College of Engineering and Technology

Bachelor of Engineering

India

Certifications

- CCP: ITIL v4 Certified
- Microsoft Azure AZ-900 Fundamentals
- Yellow belt in PMP

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
