Summary

Senior Technical Business Analyst and Senior Software Engineer with 10+ years of experience in global banking environments. Specialized in translating complex regulatory and treasury requirements into scalable ETL architectures using Ab Initio and Informatica. Proven expertise across LCR, APRA compliance, data quality, and DevSecOps-driven delivery. Adept at stakeholder engagement, offshore coordination, and production-critical data systems supporting enterprise banking platforms.

Core Skills

- **Enterprise Data Architecture:** End-to-end ETL design, scalable banking platforms, data lineage
- **Regulatory & Treasury Systems:** LCR frameworks, APRA compliance, audit-ready reporting
- **Data Engineering Leadership:** Ab Initio & Informatica strategy, performance governance
- **DevSecOps & Release Management:** Controlled deployments, CI/CD governance, risk mitigation
- **Data Quality & Risk Control:** Reconciliation frameworks, controls, incident remediation
- **Agile Delivery & Stakeholder Management:** Product ownership, cross-region coordination

Experience

Commonwealth Bank of Australia

March 2025 - Present

Senior Technical Business Analyst

Bengaluru, India

- Own business analysis for treasury and liquidity workflows, ensuring APRA-compliant regulatory outcomes.
- Translate regulatory requirements into Ab Initio ETL designs using BRE, Express IT, and Confluence docs.
- Deliver monthly LCR regulatory submissions with zero compliance deviations across audits and releases.
- Resolve Tier-3 production incidents, restoring critical balances and protecting data integrity SLAs.

Wells Fargo & Co.

August 2016 - March 2025

Senior Software Engineer

Bengaluru, India

- Engineered enterprise ETL pipelines supporting 45+ banking applications across branch and ATM systems.
- Developed Ab Initio and Informatica workflows using UNIX, Autosys, and BRE for large-scale data loads.
- Optimized ETL performance and data quality, reducing batch failures and improving SLA adherence.
- Led offshore collaboration, RCA, audits, and on-call production support for mission-critical systems.

ITTI Private Limited

July 2015 - July 2016

Technical Analyst

Bengaluru, India

- Built ETL workflows to migrate sales compensation data into Oracle databases with validation controls.
- Developed SQL and PL/SQL scripts to ensure transactional accuracy across compensation datasets.
- Supported month-end reporting and commission finalization with consistent data reconciliation.

Education

Anna University

March 2015

Bachelor of Engineering in Computer Science

Chennai, India

Certifications & Recognition

- Certified AWS Data Engineer
- Degree Equivalence: University Status H+, Degree Class A4

Languages

- English - Full Professional Proficiency (C2)
- German - Intermediate Working Proficiency (B1)
