Dear Hiring Manager,

I am applying for an Accounts Receivable Specialist or Order-to-Cash role in Germany, focused on collections, disputes, and cash application. I bring 8+ years in AR operations across billing-to-cash, with hands-on delivery in SAP S/4HANA, HighRadius, NetSuite, Salesforce, and Excel reporting. I work with clear dunning cadence, accurate documentation, and strict follow-ups that improve cash flow and reduce aging.

In my current role at ZoomInfo, I manage a high-volume delinquent portfolio and run structured call and email follow-ups based on aging and risk. I track promise-to-pay dates, maintain clean notes for audit trails, and coordinate with billing, sales, contracts, legal, and customer service to remove payment blockers. I meet a monthly collection target of USD 100,000 while managing 3,000+ delinquent accounts. I also supported a chatbot-based follow-up workflow that reduced 90+ day aging by 20 to 30% and improved new hire ramp by 30%.

Additionally, I bring dispute and OTC leadership exposure that aligns with Germany shared service expectations. At Capgemini, I supported dispute queue governance as an SME for a 20 FTE team, drove daily allocation, and kept aging reviews tight to accelerate resolution and cash. At HCL, I owned cash application controls, exception handling, and client reporting while coordinating OTC priorities for a 12 FTE team. Across these roles, I kept close readiness strong through accurate posting, evidence packs, and disciplined follow-up on open items.

If your team needs someone who can run Mahnwesen style follow-ups, reduce overdue AR, and keep dispute cycles controlled without losing customer experience, I can contribute quickly. I am open to relocating to Germany and can support English-first operations while continuing to work at German B1 level. I would welcome the opportunity to discuss how my collections discipline, dispute execution, and tool stack can improve your DSO outcomes and AR stability.

Sincerely,

Manjitha N
