Summary

Telecommunications Service Engineer with 3+ years of experience in telecom infrastructure deployment and broadband network operations. Strong expertise in tower installation, stringing, FTTH deployment, fiber maintenance, and SLA-driven O&M activities. Experienced in working at heights and executing preventive maintenance with strict EHS compliance. Proven ability to diagnose network faults, support field rollout projects, and maintain service reliability in high-demand telecom environments.

Core Skills

- **Fiber Optic Splicing & Tools:** Fusion & Mechanical Splicing, FTTH/FTTP Splicing, Aerial & Underground Splicing, OTDR Testing, Fusion Splicer, Power Meter, Fiber Cleaver, Fiber Identifier
- **Fiber Network Operations:** FTTH Installation & Fiber Maintenance, Fault Diagnosis & O and M Activities
- **Technical Knowledge:** Electrical Schematics & Diagram Reading, Network Troubleshooting, Cable Jointing, Splice Case Construction, Grounding
- **Tools & Systems:** MS Office Word Excel PowerPoint, Google Sheets, Internet & Email Handling

Experience

Bharti Airtel Ltd

September 2022 – December 2025

Service Engineer

Gangtok, India

- Execute fiber optic splicing and jointing using fusion splicing techniques, utilizing OTDR for testing and fault diagnosis to ensure minimal signal loss and improve network restoration time by 20%.
- Execute high-quality fiber optic splicing across FTTH and backbone networks, ensuring minimal signal loss and maintaining consistent service quality with 100% customer satisfaction.
- Conducted preventive maintenance and structured inspection of tower equipment, improving operational reliability and reducing fault occurrences by 10%.
- Coordinated with supervisors and cross functional field teams to streamline deployment schedules, reducing project delays by 12%.
- Implemented safety compliance checks and risk assessments before each height operation, ensuring adherence to internal safety protocols.

Service Engineer – Broadband & O&M Operations

Gangtok, India

- Installed and maintained FTTH broadband connections across assigned clusters, performing splicing, termination, and signal testing to improve first visit resolution rate by 20%.
- Diagnosed and resolved fiber, connectivity, and network faults within defined SLA timelines, reducing repeat service calls by 15%.
- Executed cable O and M activities including inspection, repair, and preventive checks to enhance cluster network uptime by 10%.
- Maintained structured service reports, job sheets, and daily activity logs to ensure operational transparency and SLA compliance.
- Strengthened customer satisfaction by delivering timely fault resolution and clear communication during installation and repair activities.

Education

Vel Tech University

2017 – 2020

Bachelor of Technology in Electronics and Communication Engineering

Chennai, India

Government Polytechnic

2014 – 2017

Diploma in Engineering

Krishnagiri, India

Languages

- English - Full Professional Proficiency (C2)
- German - Intermediate Proficiency (B1)
