Dear Hiring Manager,

I am applying for an Accounts Receivable or Order to Cash role where strong ownership of billing, collections, and cash application directly impacts cash flow and compliance. With over eight years of experience across global AR operations, I bring hands-on execution strength combined with process discipline suited to Germany-based finance teams.

In my current role as a Subject Matter Expert in aviation billing, I manage end-to-end invoicing for single and multi-insured claims. I work daily with SAP S/4HANA to execute billing workflows, resolve discrepancies with insurers, and maintain audit-ready records. Through tighter follow-ups and validation controls, I reduced DSO by 20%, lowered billing errors by 15%, and recovered outstanding receivables worth INR 15 million. This work requires accuracy, regulatory awareness, and coordination across finance and external stakeholders.

Previously at ZoomInfo, I handled international collections for a large delinquent portfolio, managing over 3,000 accounts using NetSuite, SAP, and HighRadius. I consistently achieved monthly collection targets of 100K USD through structured negotiations and dispute resolution. Alongside delivery, I trained new team members and improved ramp-up productivity by 30%, strengthening consistency across the collections function.

Across earlier roles at Capgemini, DotSolved, and Sutherland, I built a strong foundation in cash application, AR disputes, reconciliations, and order-to-cash controls. I am comfortable working with aging analysis, unapplied cash resolution, lockbox processing, and cross-functional coordination with sales, contracts, and legal teams.

I bring a working knowledge of German (B1) and full professional proficiency in English, and I am open to relocation to Germany. I value structured processes, compliance-driven environments, and accountability in financial operations. I would welcome the opportunity to contribute to a finance team that prioritizes accuracy, transparency, and timely revenue realization.

Thank you for your time and consideration.

Sincerely,

Sandhya Muralidharan
