Summary

Clinical Data Management and Pharmacovigilance professional with 7+ years of experience across global trials and post marketing safety in biopharma and CRO environments. Combines risk based data review, external data reconciliation and database lock execution to keep studies inspection ready and timelines predictable. Experienced with EDC, safety and analytics platforms to build dashboards, listings and KPIs that guide clean data decisions. Partners with clinical, safety, biostatistics and vendor teams to resolve issues quickly, mentor colleagues and sustain high quality, audit ready documentation.

Core Skills

- **Clinical Data Management:** Risk-based data review, creation of Data Management Plan and Data Management Monitoring Plan, discrepancy mgmt, database lock
- **Data Review & Reconciliation:** SAE and safety reconciliation, central lab, vendor and ePRO, coding checks
- **Systems & Tools:** Inform, Medidata Rave, Data Management Workbench, Elluminate, Argus, D Vista, Power BI, TOAD
- **Quality & Compliance:** GCP, ICH guidelines, regulatory inspection support, audit readiness, SOP authorship, training
- **Reporting & Analytics:** Listings, KPIs, dashboards, query metrics, issue tracking, study-level performance views
- **Leadership & Stakeholders:** Cross-functional coordination, stakeholder communication, mentoring, buddying, attended & supported FDA inspection

Experience

ICON plc

November 2025 – Present

Senior Clinical Data Coordinator

Bengaluru, India

- Own global data management activities for 2 clinical studies, aligning plans, edit checks and timelines with protocol.
- Coordinate cross-functional teams, and vendors to clarify issues, resolve queries quickly and standardise resolutions.
- Reconcile EDC and safety datasets, for SAEs, endpoints, keeping values consistent for reporting and regulatory audits.
- Track KPIs, risks and milestones across studies, raising issues early so database lock and transfers stay on schedule.

Novo Nordisk Service Centre (India) Private Ltd

December 2023 – October 2025

Data Manager and Clinical Data Insights Analyst

Bengaluru, India

- Led risk-based data review, and external data strategy for 3+ global trials in the rare disease area.
- Provided inputs for D Vista and Power BI dashboards and automated queries to focus checks on high-risk sites, visits, and data.
- Orchestrated lab imaging and ePRO transfers, maintained discrepancy lists and drove site, CRA follow-up for clean data.
- Executed reconciliations KPI reporting and signoff so FDA inspections closed with no material data management findings.

Novo Nordisk Service Centre (India) Private Ltd

March 2019 – November 2023

Senior Drug Safety Associate, Drug Safety Associate I and II

Bengaluru, India

- Handled intake, triage and processing of adverse event cases from postmarketing and noninterventional studies in Argus.
- Performed medical checks, verified transfer from source to safety database and ensured completeness of clinical fields.
- Managed literature surveillance, flagged safety cases and signals, and served as EDC superuser for NIS reconciliation.
- Onboarded and mentored new staff, wrote SOP content and delivered case processing output above 180% of targets.

- Reviewed safety update reports and checked consistency of all clinical and safety data for pharmacovigilance projects.
- Supported preparation of aggregate safety deliverables by gathering inputs and maintaining documentation for reviews.
- Collaborated with senior safety staff to refine report content and understand regulatory expectations for submissions.

Education

KVSR Siddhartha College of Pharmaceutical Sciences**2012 – 2018***Doctor of Pharmacy (Pharm D)**Vijayawada, India*

Awards

- Going Extra Mile award from Novo Nordisk for outstanding adverse event case processing performance.
- Runner up for NN Way Champion award at Novo Nordisk for sustained high performance and role modelling of values.
- First prize in poster presentation on drug-related hospital admission at an international pharmacoepidemiology conference.
