Dear Hiring Manager,

I am applying for compliance and financial crime roles in Germany where strong AML execution, regulatory judgment, and cross-border exposure are critical. With over seven years of experience across Big 4 consulting and global banking, I bring hands-on expertise in AML, KYC, EDD, sanctions screening, and regulatory risk assessment aligned with EU expectations.

In my current role at PwC Global Delivery Services, I lead enhanced due diligence on high-risk individuals and entities supporting onboarding, periodic reviews, and trigger events. I assess complex ownership structures, identify PEP and sanctions exposure, and deliver clear risk conclusions for compliance and legal stakeholders. I work closely with policy teams to ensure outcomes align with FATF, FinCEN, FCA, and EU AML standards while meeting strict delivery timelines.

Previously at KPMG, I supported AML onboarding and review programs for global banking and wealth management clients. I reviewed KYC documentation, sanctions results, and customer risk profiles, while improving data quality and audit readiness. At Saxo Bank, I handled transaction monitoring, alert investigations, and regulatory reporting, reducing false positives through risk-based analysis and consistent escalation practices. These roles strengthened my understanding of market abuse controls, AML governance, and GDPR requirements in regulated financial environments.

I bring strong working knowledge of tools widely used in European compliance functions, including World-Check, LexisNexis, Dow Jones, DnB, Orbis, and transaction monitoring platforms. I hold internal AML, Market Abuse, and GDPR certifications from Saxo Group, reinforcing my practical exposure to EU regulatory expectations.

I am motivated to build my career in Germany and contribute to organizations that value regulatory rigor, risk ownership, and high-quality compliance delivery. I adapt quickly to new regulatory environments, work effectively with multicultural teams, and maintain accountability in high-risk decision making.

I welcome the opportunity to discuss how my experience can support your compliance and financial crime objectives in Germany.

Sincerely,

Mohd Ali Safdar
