Dear Hiring Manager,

I am writing to express my interest in opportunities within your organization in the areas of **retail banking operations, branch management, or financial services**. With professional experience in banking operations and strategic branch management, combined with a PhD in Commerce, I bring a strong foundation in financial analysis, operational governance, and customer relationship management.

In my current role as **Senior Manager at Rajasthan Gramin Bank**, I lead branch operations while supervising a team responsible for delivering financial services to a large customer base. My responsibilities include implementing operational control systems, ensuring regulatory compliance, and monitoring branch performance to achieve business growth targets. I have also introduced structured customer engagement initiatives that strengthened relationships with more than 25,000 clients while improving service delivery and retention.

Previously, as an **Assistant Manager at State Bank of India**, I worked closely with retail banking customers to assess financial needs and provide suitable banking solutions. This role strengthened my expertise in financial advisory services, compliance management, and cross-functional collaboration within large banking organizations. Through consistent customer engagement and advisory support, I contributed to branch business targets while maintaining high service standards.

Alongside my professional banking experience, I hold a **Doctor of Philosophy in Commerce from the University of Rajasthan**, where my research focused on marketing and consumer behavior. This academic background has strengthened my analytical and research capabilities, allowing me to approach financial decision-making with a strategic and data-driven perspective.

I am highly motivated to bring my banking expertise and leadership experience to Germany's financial services sector. With strong customer relationship skills, operational governance experience, and international academic exposure, I am confident in my ability to contribute effectively to banking teams operating in dynamic and regulated environments. I also have intermediate proficiency in German and continue to improve my language skills to integrate effectively into professional and cultural settings in Germany.

Thank you for considering my application. I would welcome the opportunity to discuss how my banking experience and analytical capabilities can contribute to your organization.

Sincerely,

Dr. Ashwani Prabhakar
