Summary

Project controls professional with 8+ years of experience delivering financial governance and cost management across large infrastructure and EPC programs. Certified Project Management Professional with expertise in cost forecasting, earned value management, and delay analysis within complex multi-stakeholder environments. Proven ability improving reporting efficiency, controlling project financial performance, and supporting executive decision making across international project portfolios.

Core Skills

- **Planning Tools:** Primavera P6, MS Project
- **Cost Control Systems:** EcoSys, Oracle, SAP PS
- **Data & Reporting:** MS Excel (Advanced), Power BI, Dashboards
- **Contract Management:** FIDIC, SCL Delay Protocols
- **Project Controls:** Earned Value Management (EVM), Cost Breakdown Structure
- **Project Planning & Risk Management:** Pricing Tools, Staffing Plans, Risk Registers

Experience

Jacobs Solutions

March 2024 – Present

Project Controller – West Central United States for (Arizona, Nebraska)

Hyderabad, India

- Spearhead cost control across a portfolio of 30+ infrastructure and EPC projects by managing budgeting, forecasting, and financial governance to maintain alignment with revenue and margin targets.
- Develop cost tracking and forecasting frameworks using EcoSys and internal pricing systems to improve financial visibility across multiple project phases.
- Deliver monthly financial reporting, variance analysis, and Estimate-to-Complete forecasts to Regional Vice Presidents and Project Managers to support executive decision making.
- Establish Cost Breakdown Structures, cost coding schemas, and progress tracking systems to standardize reporting across distributed project teams.
- Automate ETC conversion workflows between staff planning data and EcoSys using advanced Excel automation, saving 10+ hours of manual reporting effort per month.
- Improve reporting productivity by reducing staff plan processing time by 90% (150 minutes to 15 minutes) through automated Excel reporting models.

Larsen & Toubro

April 2021 – March 2024

Senior Engineer – Project Controller

Chennai, India

- Directed cost management, variance analysis, and schedule integration across large civil infrastructure projects including metro, dam, bridge, dry dock, and nuclear programs valued up to \$315M.
- Collaborated with Project Directors, planners, and commercial teams to synchronize cost baselines with construction schedules and change management processes across multiple EPC programs.
- Led preparation and submission of Extension of Time (EOT) and prolongation cost claims, recovering \$60M and mitigating potential liquidated damages exposure of \$50M through forensic delay analysis.
- Administered FIDIC contracts by managing variation evaluations, contractor entitlement assessments, and dispute resolution compliance across infrastructure programs.
- Designed automated financial dashboards tracking liquidated damages exposure, EOT claims, and cost trends using advanced Excel and reporting tools, improving reporting efficiency by 30%.

Mega Engineering and Infrastructure Ltd

October 2020 – March 2021

Trainee Engineer

Hyderabad, India

- Supported project execution, planning, and scheduling activities for infrastructure construction programs.
- Prepared progress monitoring reports including S-curves, daily progress updates, and weekly construction summaries.
- Coordinated with project teams to track execution milestones and maintain schedule visibility.
- Assisted engineering teams in maintaining project documentation and reporting accuracy.

*Quantity Surveyor - Residential Buildings**Hyderabad, India*

- Performed quantity take-offs and cost estimation for residential, commercial, and mixed-use construction projects.
- Prepared Bar Bending Schedules, Bills of Materials, and technical specifications aligned with project design and contract requirements.
- Managed contractor measurements, client billing, and cost reconciliation ensuring accuracy of financial transactions.
- Developed progress tracking tools including S-curves and weekly productivity reports to monitor construction performance.
- Prepared interim and final payment applications in compliance with contractual conditions and financial governance standards.

Training

- Primavera P6 for Cost Control – IPCMS
- Project Controls Advancement Program – Jacobs e3 Learning
- Essentials of Contract Management – L&T IPM
- Delay Analysis Techniques in Construction Projects – L&T IPM

Education

National Institute of Construction Management and Research (NICMAR)	2020
<i>Post Graduate Diploma in Quantity Surveying and Contracts Management (Grade: 8.5)</i>	<i>India</i>
Jawaharlal Nehru Technological University Hyderabad (JNTUH)	2016
<i>Bachelor of Technology in Civil Engineering (Grade: 72.08%)</i>	<i>India</i>

Certifications

- Project Management Professional (PMP) – Project Management Institute (PMI), USA
- Primavera P6 Project Management Tool – IPMCS
- Construction Cost Estimation and Cost Control – Columbia University (Coursera)
- Six Sigma Principles – Kennesaw State University (Coursera)
- Diploma in Python for Data Science – Alison
- Excel Fundamentals for Data Analysis – Macquarie University (Coursera)

Professional Memberships

- Member – Project Management Institute (PMI), USA
- Career Network Chapter Lead – Jacobs, Hyderabad Region

Awards & Honors

- Emerging Talent in Delay Analysis – Larsen & Toubro

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Proficiency (B1)
