Dear Hiring Manager,

I am writing to express my interest in **digital marketing, brand communications, or digital strategy opportunities** within your organization. With over 13 years of experience building corporate brand visibility through digital marketing, social media strategy, and content-led communications, I bring strong expertise in creating impactful digital ecosystems that strengthen brand reputation and audience engagement.

In my last role at **Abbott Healthcare**, I led digital and social media strategy for a global healthcare organization, shaping the company's corporate digital presence across India. I translated global marketing strategies into localized campaigns that resonated with regional audiences while maintaining brand consistency. By developing integrated content strategies, paid media frameworks, and digital communication initiatives, I expanded brand reach and improved audience engagement across multiple digital platforms.

Following my tenure at Abbott Healthcare in 2023, I took a planned sabbatical to address family health priorities and recalibrate after COVID-19. I am now looking to rejoin the workforce.

Earlier in my career, I worked with leading digital agencies, managing campaigns for global brands across healthcare, consumer products, automotive, tourism, and lifestyle sectors. These roles strengthened my capabilities in campaign management, social media strategy, audience engagement, and cross-functional collaboration. I consistently combine storytelling, data insights, and media strategy to enhance brand positioning and online visibility.

I am particularly interested in opportunities in Germany, given its leadership in data privacy, digital regulation, and consumer-first marketing practices. With GDPR and evolving data governance frameworks shaping modern marketing ecosystems, I am motivated to contribute at the intersection of marketing, technology, and responsible data use.

I would welcome the opportunity to discuss how my experience in digital strategy and brand communications can contribute to strengthening your organization's digital presence.

Thank you for your time and consideration.

Sincerely,

Samprita Sinha
