- **Systems & Platforms:** ERP, Hospital Information Systems (HIS), Power BI, Tableau (Basic)
- **Change Leadership:** Change Management

Experience

Credence Hospital

March 2025 – Present

General Manager

Kerala, India

- Lead end-to-end hospital operations with full P&L accountability, strengthening financial sustainability through structured budgeting, cost governance, and resource optimization, improving operating margin by 8%.
- Lead cross-functional teams of 250+ clinical and administrative staff across operations, diagnostics, and patient services.
- Oversee clinical and non-clinical departments, enhancing operational efficiency and regulatory compliance through KPI dashboards, audit controls, and standardized SOP frameworks.
- Serve as Patient Safety Officer, implementing risk management protocols and quality assurance systems, reducing reportable safety incidents by 15%.
- Drive cross-functional process optimization across admissions, diagnostics, and discharge workflows, improving overall operational efficiency by 20%.
- Develop department heads through structured performance management and leadership mentoring, strengthening accountability and cross-functional collaboration.

KIMS Health

June 2023 – March 2025

Senior Manager – Operations & Administration

Kerala, India

- Improved Radiation Therapy throughput by 20% and PET CT efficiency by 40% through workflow redesign, capacity planning, and performance monitoring systems.
- Enhanced OPD operational efficiency by 20% while managing 300 new patients monthly through structured manpower planning and shift optimization.
- Led commissioning of critical oncology infrastructure including Linear Accelerator installation, 20-bed Chemo Ward setup, and new multi-specialty unit launch, ensuring regulatory and operational readiness.
- Standardized medical workforce scheduling and training frameworks for doctors and DNB trainees, improving service consistency and reducing treatment cycle time by 25%.
- Implemented structured process management and reporting mechanisms, increasing patient satisfaction scores by 15%.

- Directed high-risk aviation and humanitarian missions, coordinating multi-agency crisis response during floods and national emergencies while maintaining zero operational safety breaches.
- Led COVID-19 relief logistics operations in coordination with civil authorities, ensuring uninterrupted distribution of essential supplies across affected regions.
- Delivered infrastructure modernization under Project MAFI and enterprise asset digitization under Project e-MMS, strengthening maintenance governance and operational visibility.
- Oversaw runway resurfacing and infrastructure upgrades for Rafael induction program, establishing SOP compliance frameworks and audit readiness processes.
- Managed recruitment board operations and led large technical teams during national exercises, strengthening workforce capability, security audits, and contingency planning standards.
