Dear Hiring Manager,

I am writing to express my interest in logistics and operations roles that align with my professional background. With over 20 years of experience in supply chain management, courier operations, financial reconciliation, and team supervision across India and the Middle East, I bring a consistent record of driving efficiency and compliance in fast-paced logistics environments.

In my most recent role as a Team Leader for UPS operations at Gulf Warehousing Company, I managed COD processes, financial adjustments, inventory flow, and MIS reporting. I worked closely with cross-functional teams to resolve billing discrepancies, improve payment collection timelines, and ensure operational continuity during staff transitions. My ability to manage day-to-day logistics activities while maintaining documentation accuracy has contributed to process compliance and service consistency.

Earlier, I gained comprehensive experience in border clearance, warehouse management, export handling, and airline coordination. I have worked with international shipment protocols, master airway bill (MAWB) processes, and financial reporting, ensuring full adherence to supply chain and customs regulations. Additionally, I successfully handled client liaison, route planning, and auction procedures for undelivered imports.

I hold certifications in Six Sigma (Yellow and Green Belt) and IATA DGR, and I am committed to applying process improvement methodologies and safety protocols throughout all stages of the logistics lifecycle. My core strengths include import/export documentation, inventory control, cash management, and team collaboration.

I welcome the opportunity to contribute to an organization where operational accuracy, compliance, and service excellence are valued. Thank you for considering my application.

Sincerely,

Kiran Sudhakar Salian
