Summary

Regulatory Affairs / Homologation specialist for automotive and EV market access across EU/UNECE, GB, FMVSS, and APAC. Translate regulations into design inputs, plan witness tests with accredited labs, and standardize templates & KPIs to shorten time-to-approval and reduce audit findings. Cross-functional partner to R&D, validation, and authorities; open to Germany/EU roles.

Core Skills

- | | | |
|--|--|---|
| • Regulatory & Standards: EU WVTA; UNECE R10/R85/R100; CMVR/AIS; FMVSS; GB; | • Collaboration: Stakeholder alignment; labs/authorities interface; training enablement; escalation | • Domains: EV powertrain systems; component approvals; multi-market market entry (EU/USA/APAC) |
|--|--|---|

Experience

VALEO

December 2022 – Present

Senior Regulation Compliance Engineer

Chennai, India

- Mapped UNECE/EU clauses to design inputs and verification plans; scheduled witness tests with labs/authorities; shortened approval lead time by ~20–30% and lowered audit findings.
- Enforced change-control and documentation checks during design updates; maintained traceability from requirements to evidence; minimized retest risk and protected launch-critical paths.
- Instrumented KPI dashboards and status reviews for leadership and cross-functional teams; accelerated decisions, enabled earlier escalations, and raised first-pass approvals.
- Delivered training and checklists on EU vs export differences for R&D/validation; uplifted submission quality and audit readiness across programs.

BIT

March 2020 – December 2022

R&D Engineer

Erode, India

- Authored conformity documentation, risk assessments, and technical files for target markets; supported clean audits and timely approvals.
- Coordinated test bookings and evidence packs with external labs; reduced wait time and avoided late-cycle slips across submissions.
- Tracked reviews, decisions, and artefacts for full traceability; improved re-use of evidence in subsequent dossiers.

Projects

Type-Approval Playbook — Chennai, India

- Standardized process and templates for UNECE/EU certifications to scale submissions across markets and product lines.
- Consolidated clause interpretation, evidence capture, and review checklists; reduced ambiguity and review cycles.
- Delivered training packs for R&D and validation teams; improved audit readiness and first-pass yield.
