

KAVYA VENKATESHWARAN

Mumbai, India (Open to Relocate to Germany)

☎ +91 7338894363 ✉ kavyavenkateshwaran16@gmail.com  [Linkedin: Kavya](#)

Summary

Aerospace Engineer with 3+ years of experience leading IRAD, Sustaining, NPI, and NTI programs across multi-site aerospace operations. Expertise in actuation systems, air-to-air refuelling, environmental systems, quality engineering, and regulatory compliance. Proven record of accelerating product launches, optimizing engineering workflows, and delivering cost savings through automation and strategic program leadership.

Skills

- **Engineering & Aerospace:** Actuation Systems, Air-to-Air Refuelling, Environmental Systems, DFSS, DFMEA, FMECA, Stress Analysis
- **Quality & Compliance:** AS9100, EASA, GCAA, Root Cause Analysis, Audit Readiness, MEL & AMP Development
- **Program & Operations:** NPI/NTI Execution, IRAD Programs, Sustaining Engineering, Cross-Site Collaboration, OTD Optimization
- **Tools & Simulation:** ANSYS Fluent, ANSYS Mechanical, Star CCM+, MATLAB, Simulink
- **Design & PLM:** CATIA V5, SolidWorks, Autodesk Fusion 360, Enovia, Windchill, 3D Printing
- **Analytics & Automation:** Advanced Excel, Power BI, PowerApps, Reporting Automation, Resource Planning Systems

Professional Experience

EATON

February 2024 – Present

Engineer – Aerospace Mission Systems Division

Pune, India

- Led design and development of electrical and pneumatic space actuation systems under IRAD programs.
- Applied requirement-driven engineering and performance validation to ensure mission compliance and reliability
- Reduced NPI cycle time from 24 to 12 months, accelerating product launch by 50% and improving time-to-market.
- Applied DFSS, DFMEA, and FMECA to optimize defence actuation systems, cutting production time by 66% while ensuring full compliance and reliability standards.
- Directed 7+ cross-site aerospace sustaining projects, achieving more than 95% OTD and maintaining more than 90% FPY across programs.
- Mentored 5 engineers while automating tracking and resource planning systems, saving 90% manual effort and \$200K annually.
- Ensured 100% AS9100 audit readiness through Gemba walks, internal audits, and structured quality governance controls.

TITAN Aviation

November 2022 – January 2024

Quality Coordinator

Dubai, UAE

- Directed a multi-departmental root cause analysis initiative using advanced statistical tools.
- Led cross-functional teams to implement targeted corrective actions, resulting in a 22% improvement in system efficiency and a 30% reduction in recurring quality issues.
- Engineered and managed Minimum Equipment Lists (MELs) and Aircraft Maintenance Programs (AMPs) for a fleet of 15+ aircraft.
- Ensured 100% regulatory compliance with aviation authorities including GCAA and EASA through rigorous documentation and process alignment.
- Led the monitoring and closure of over 50 Non-Compliance issues annually.
- Digitalized QMS workflows, cutting audit resolution time by 40% and manual reporting by 60%.

Education

University of Glasgow

April 2022

MSc in Aerospace Engineering

Glasgow, UK

SRM Institute of Science and Technology

June 2020

B.Tech in Aerospace Engineering

Kattankulathur, India

Research & Publications

- Kavya Venkateshwaran et al., “Numerical Aerodynamic Study of a Typical High-Rise Building,” AIP Conference Proceedings 2311 (2020).
- “Study of Wall Jet Using a Particle Model,” ASME Gas Turbine Conference, IIT Madras, December 2019.
