Summary

SOC Analyst (L2) and Incident Response professional with 10+ years across Security Operations and enterprise security tooling. Hands-on in alert triage, escalation, RCA, containment guidance, and case management in regulated environments. Experienced with SIEM investigations using IBM QRadar, Microsoft Sentinel (Azure Sentinel), and Splunk. Delivered endpoint, email, identity, data, and vulnerability workflows using CrowdStrike Falcon, Delinea (Thycotic), Avanan, Varonis, and Rapid7 InsightVM. Known for clear incident reporting, stakeholder communication, and operational documentation aligned to SLAs and audit readiness.

Core Skills

- **SOC & Incident Response:** Triage, escalation, incident response (IR), RCA, containment, remediation, playbooks, SLAs
- **Endpoint & Email Security:** CrowdStrike Falcon (EDR), Microsoft Defender for Endpoint (MDE), Avanan, BEC indicators
- **SIEM & Log Analytics:** IBM QRadar, Microsoft Sentinel, Splunk, Windows Event Logs, Active Directory (AD), firewall logs
- **Data Security Monitoring:** Varonis DatAdvantage, sensitive data exposure, anomalous access detection, escalation workflows
- **Threat Detection:** IOC handling, threat intelligence, phishing investigation, email header analysis, MITRE ATT&CK (exposure)
- **Vuln Mgmt & ITSM:** Rapid7 InsightVM, asset discovery, scanning, risk prioritization, ServiceNow (SNOW), Jira

Professional Experience

Capgemini (Client: Enterprise)

December 2021 – Present

Cyber Security Consultant (SOC and Security Tooling)

India

- Own enterprise security operations across endpoint, email, data, PAM, and vulnerability workflows to sustain control coverage.
- Administer CrowdStrike Falcon, Delinea, Varonis, Avanan, and InsightVM; tune policies, review alerts, and manage cases in ITSM.
- Optimized detections and reduced alert noise by 20% while accelerating investigation quality and containment guidance.
- Automated AD-integrated PAM provisioning for 200+ privileged accounts, improving access turnaround by 30%.

ValueLabs

January 2020 – November 2021

SOC Analyst (L1)

India

- Delivered 24x7 SOC monitoring and first-line incident handling to protect enterprise systems and meet SLA requirements.
- Triage SIEM alerts; analyzed firewall, Windows, and AD logs; investigated phishing via header analysis and reputation checks.
- Improved SLA adherence by escalating actionable incidents with evidence, timelines, and remediation guidance for responders.
- Prepared incident summaries for 10+ stakeholders per case and maintained accurate case documentation through closure.

Wipro

February 2018 – January 2020

Security Analyst (SOC)

India

- Supported SIEM-driven monitoring and runbook execution to detect, validate, and escalate suspicious activity across environments.
- Reviewed correlated events, validated telemetry, executed response steps, and documented evidence and actions in ServiceNow.
- Reduced repeat false positives by 15% through tuning recommendations and strengthened handoffs via updated SOPs.
- Enabled analyst consistency by standardizing incident documentation and supporting knowledge transfer across shifts.

Earlier Experience: Associate Consultant (Evosys), Program Analyst and Software Programmer (Broadline Computer Systems)

April 2014 – January 2018

Education

JNTU Kakinada, India

2013
