

SABISH RAJA

Chennai, India (Open to Relocate to Germany)

☎ +91 96004 53867 ✉ sabishsuresh@gmail.com 🌐 [Sabish Raja](#)

Summary

Semiconductor systems engineer with over 7 years across robotics, semiconductor equipment, cement and education. Experienced in installing, configuring and validating complex inspection systems in lab and fab environments. Strong in root cause analysis, reliability checks and serviceability reviews with cross-functional work with development, process, quality and manufacturing teams. Comfortable with robotics, CNC, CAD and internal tools for wafer handling, monitoring and diagnostics. Motivated to support high availability of semiconductor tools for engineering and manufacturing teams in Germany.

Core Skills

- **Systems Engineering:** Tool installation, qualification, OS and application configuration, system integration, validation
- **Hardware & Reliability:** Hardware testing, serviceability inspections, design for maintenance and safety, performance checks
- **Tools & Robotics:** CAD, CREO, MATLAB, CNC programming, Kawasaki and Yaskawa robots, Wire EDM, Phoenix, pre-aligner, OCLP
- **Semiconductor Tools:** Ion Monitor, Wafer Identifier, CID Tool, overhead transport system tools, wafer handling and inspection systems
- **Quality & Methods:** Root cause analysis (RCA), 5S, Agile, phase exit reviews, test planning, defect documentation, knowledge base design
- **Business & Training:** Supply chain market risk analysis, technical writing, ADDIE-based instructional design, training effectiveness analysis

Experience

HCL Technologies (for KLA)

January 2022 – December 2024

Systems Engineer

India

- Owned installation and systems lab support for semiconductor inspection tools for about 10 sites with a team of about 8 engineers.
- Configured operating systems, application software and system tools and ran integration tests using logs and Ion Monitor and CID Tool.
- Worked with development, process, quality and manufacturing teams to review defects and raised fixes that improved first pass acceptance by about 20%.
- Applied RCA on recurring issues and converted fixes into guides and knowledge articles that cut downtime by about 15% and investigation time by about 25%.

Origin Learning Solutions

May 2021 – December 2021

Technical Writer

India

- Created technical training content for global engineering and technology users using the ADDIE model and structured inputs from subject experts.
- Set quality checklists and review cycles and retired low-impact modules and reduced content defects and rework after release by about 30%.

Beroe Consulting

June 2019 – May 2021

Research Analyst

India

- Delivered supply chain market risk analysis for a portfolio of about 300 pharma companies to support sourcing and vendor decisions for clients.
- Standardised indicators and templates for common requests and reduced turnaround time for standard analysis work by about 20% across the team.

Infant Jesus College of Engineering

June 2017 – May 2019

Assistant Professor

India

- Taught robotics and mechatronics and manufacturing technology to cohorts of about 60 engineering students each semester in core programmes.

My Home Industries

March 2016 – April 2017

Production Engineer

India

- Supported fabrication and commissioning and production for a cement grinding unit inside a large integrated manufacturing plant.
- Applied RCA and 5S and resolved recurring mechanical issues and reduced stoppages in the assigned area by about 10% over the period.

Projects

Design and Optimisation of Input Process Parameters using Wire Electric Discharge Machining

- Investigated input parameters and used design of experiments and analysis tools to improve machining performance for test samples.

Design and Fabrication of a Hydraulic Jack

- Covered CAD design and prototype build of a hydraulic jack that met basic load and safety needs for the concept.

Education

Alagappa University

May 2025

Master of Business Administration in Human Resources

India

Anna University

June 2015

Master of Engineering in Manufacturing Technology

India

Karunya University

May 2013

Bachelor of Technology in Mechanical Engineering

India

Awards and Recognition

- Award from Infant Jesus College of Engineering for achieving a one hundred percent pass rate in Robotics.
- Best Performer recognition in the Risk Management Team at Beroe Consulting for supply chain risk analysis work.
- Star Performer award at HCL Technologies for systems lab support and delivery of key lab and customer tool activities.

Languages

- English – Professional Working Proficiency (C1)
- German –Intermediate Working Proficiency (B1)
