I am writing to apply for **warehouse and logistics** roles in Germany. With over 8 years of hands-on experience in warehouse operations, inventory management, and order fulfillment, I bring a strong track record of maintaining accuracy, efficiency, and safety in high-volume environments. I am currently based in India and am open to relocating to Germany for long-term employment opportunities.

In my recent role at **Aroma Group in the UAE**, I handled packing and shipping operations, ensuring that goods met quality standards before dispatch. I performed detailed inspections, maintained accurate labeling and documentation, and contributed to improving delivery reliability by reducing packaging-related damages. My focus has always been on precision and maintaining consistency in operations.

Previously, at **Bitufelt Engineering in Pune**, I supported daily warehouse operations by managing shipping and receiving activities, operating material handling equipment, and ensuring smooth coordination across teams. I contributed to improving workflow efficiency by ensuring timely movement of goods and accurate handling of inbound and outbound shipments.

Earlier in my career at **UB Engineering**, I gained strong foundational experience in inventory control, order processing, and warehouse organization. I maintained high inventory accuracy, implemented structured stock management practices, and supported end-to-end order fulfillment processes, including picking, packing, and dispatching.

I am skilled in inventory handling, stock control, dispatch coordination, and maintaining safety and hygiene standards. I also bring strong teamwork, adaptability, and communication skills, which help me work effectively in fast-paced environments. Additionally, I have basic **computer knowledge and a Diploma in Computer Applications**, which supports my ability to work with warehouse systems and documentation.

I have an intermediate level of German (B1) and am continuously improving my language skills to integrate effectively into the workplace. I am highly motivated to contribute to efficient warehouse operations and to grow professionally within a structured and quality-driven organization in Germany.

Thank you for considering my application. I look forward to the opportunity to contribute to your team.

Sincerely,
Rahul Kumar
