Dear Hiring Manager,

I am writing to express my interest in **Retail Expansion, Construction Project Management, or Fit-out Leadership** roles within your organization. With over 18 years of experience delivering large-scale retail, QSR, and clinic rollout programs, I bring strong expertise in end-to-end project execution, multi-site program management, and stakeholder coordination across complex environments.

In my recent role as **General Manager – Head of Projects at VLCC**, I led design, execution, and maintenance across India and Bangladesh, successfully delivering 130+ site openings, renovations, and relocations. I established strong governance frameworks including BOQ and CAPEX discipline, vendor SLA management, and project monitoring dashboards, ensuring cost control, schedule adherence, and consistent delivery quality. I also managed preventive maintenance for 180+ clinics, maintaining high compliance standards and operational uptime across facilities.

Previously, at **Chaipoint**, I led new store openings and renovation programs, delivering 24 launches and 18 refurbishments while improving cost efficiency by reducing NSO costs by 16% and reopening costs by 27%. My approach focuses on structured planning, critical path management, and proactive risk identification to ensure on-time project delivery. At Bhartiya City Mall and Lulu Group, I further strengthened my expertise in tenant coordination, retail fit-outs, regulatory approvals, and design standardization, successfully delivering diverse formats including QSR outlets, supermarkets, and multiplexes.

Earlier in my career with **Yum Restaurants India**, I managed large-scale store rollouts across multiple states, improving build cycle times by 25–35% through optimized sequencing and contractor management. Across all roles, I have consistently driven quality, safety, and compliance while managing multiple concurrent projects and cross-functional stakeholders.

I am particularly interested in opportunities in Germany and the DACH region, where structured project governance, quality standards, and precision in execution are highly valued. With my proven experience in delivering high-volume retail rollouts, strong technical understanding of MEP and construction, and growing German language proficiency, I am confident in my ability to contribute effectively to your organization.

I would welcome the opportunity to discuss how my experience in retail expansion, construction management, and multi-site program delivery can support your business objectives. Thank you for your time and consideration.

Sincerely,
Harsha H J
