Professional Summary

Senior Product Manager with 11 years of experience leading cross-functional squads to ship customer-impacting retail and e-commerce products. Drove in-house content and fraud moderation platform; projected >30% long-term moderation cost reduction. Integrated in-store reviews with online items; lifted weekly native review volume by 4.16%. Scaled Auto Care Center booking and wheel-install flows; increased tire-install appointments by 5.26%. Rapidly promoted to Senior Product Manager and earned Walmart Excellence Award.

Skills

Product Strategy & Delivery: Roadmap ownership, prioritization, stakeholder alignment, user-journey design

Content Integrity & UGC: Review collection, syndication, moderation, annotation setup, compliance, deduplication, traceability, re-moderation

Retail Services & Omnichannel: Appointment scheduling, service flows, capacity expansion, operations enablement

Collaboration: Cross-functional leadership with engineering, data science, compliance and external partners

Professional Experience

Senior Product Manager 11/2024 to Current

Walmart Global Tech, India – India

- Owned vision and roadmap for an in-house content and fraud moderation platform; secured budget and resources; projected >30% long-term moderation cost reduction.
- Set up annotation operations and quality standards to power accurate moderation at scale; aligned engineering, data science and compliance for delivery.
- Designed customer review-submission journeys across new touch points; improved completion flow and throughput on high-volume items.

Product Manager III 05/2023 to 11/2024

Walmart Global Tech – India

- Unified in-store user reviews with online item reviews for corresponding products; increased weekly native customer review volume by 4.16%.
- Led external review-syndication partnerships; troubleshoot and enhanced pipelines to improve coverage and timeliness of content distribution.
- Drove compliance initiatives including deduplication, traceability and re-moderation of flagged reviews; resolved non-compliance via root-cause fixes.
- Built roadmap for a multi-service appointment scheduling platform for Walmart Auto Care Centers; defined user flows for wheel-install services.
- Executed book-slot window expansion to two weeks; increased tire-install appointment bookings by 5.26%; enabled capacity planning with operations.

Program Manager 06/2018 to 04/2020

Teach for India – India

- Coached 17 Fellows to improve classroom delivery and leadership competencies; ran targeted training based on lever analysis.
- Earned positive ratings from 76% of Fellows for empathetic support and problem solving.

10/2017 to 06/2018

- Designed Math and English curriculum for Grades 1-4 in CBSE-aligned rural schools; ensured fidelity by analyzing student performance data.
- Built an exemplar curriculum module used to pitch to prospective partner schools.

07/2016 to 04/2017

- Monitored budget and resource utilization for Tata Communications CSR projects; ensured policy due diligence and contract compliance.
- Planned and executed 10 employee-volunteering drives across Chennai and Bangalore; delivered 5,000 volunteer hours.

06/2014 to 04/2016

- Delivered holistic Grade 2 instruction; drove 1.2 years growth in English reading levels and 32% Math mastery for cohort of 29 students.
- Designed and implemented a football-based values and physical-development project; organized a chapter-wide team-building event.

- Rotary Internal-Combustion Engine Simulation (VIT) - Designed a rotary IC engine and built MATLAB-based simulation; optimized design to 300 kW theoretical peak power and 41.71% efficiency.
- Operations Research Paper - Authored “Small Scale Industries, Large Scale Solutions”; modeled inventory control to raise monthly gross profit by Rs. 95–158; proposed a consulting business model.
