Summary

Software Engineer with 4+ years of experience in Java backend development, specializing in scalable REST APIs and microservices using Spring Boot and Spring MVC. Experienced in HL7 FHIR healthcare systems, API integration, and JSON/XML data processing. Skilled in Linux debugging, automated API testing with Postman, and containerized deployments using Docker and Kubernetes. Contributed to release readiness through test traceability and QA documentation.

Core Skills

- **Backend & Integration:** Java, OOP, Spring Boot, Spring MVC, REST APIs, Microservices
- **Healthcare Systems:** HL7, FHIR, EMR/EHR Systems, DICOM
- **DevOps & Systems:** Docker, Kubernetes, Linux
- **Data & Databases:** MySQL, PostgreSQL, JSON, XML
- **Streaming:** Kafka (event streaming)
- **Testing & Quality:** Postman, API Testing, Unit Testing, Test Automation
- **Cloud:** AWS (EC2, S3)
- **CI/CD:** GitHub Actions (build & test automation)
- **Tools:** Git

Experience

Freelance

January 2025 – Present

Software Engineer

India

- Built 10+ REST APIs (Spring Boot, layered architecture), enabling scalable backend services.
- Designed relational schemas and CRUD operations across 5+ modules, improving data efficiency.
- Deployed Dockerized services and verified 20+ endpoints, ensuring stable releases.
- Implemented DICOM processing, enabling standardized medical data exchange.
- Reduced processing errors by 25%, improving system performance.

Toshiba Software India Pvt Ltd

July 2022 – January 2025

Software Engineer

Bengaluru, India

- Delivered solutions for HL7 FHIR-based EMR/EHR systems, ensuring compliant data exchange.
- Developed 30+ RESTful APIs using Java, Spring Boot, and Spring MVC, handling CRUD operations and JSON/XML processing.
- Automated 1,000+ API test cases (Postman scripts), improving release quality.
- Deployed containerized microservices using Docker and Kubernetes, reducing defects by 20%.
- Reduced API latency by 36% (181 ms → 115 ms), exceeding target (118 ms) and achieving SLA.

Toshiba Software India Pvt Ltd

March 2022 – July 2022

Software Engineer Intern

Bengaluru, India

- Developed and validated FHIR APIs across 15+ endpoints using Postman automation.
- Produced test plans, UML, and validation docs, improving QA efficiency.
- Increased test execution speed by 30% via reusable Postman assets.

AscentHR

September 2021 – February 2022

Backend Developer Intern

Tamil Nadu, India

- Developed RESTful APIs for payroll workflows (employee management, salary processing) using Java, supporting multiple business scenarios.
- Implemented business logic for tax, bonus, and deductions, ensuring 100% rule compliance through validations.
- Developed and validated 10+ REST APIs, ensuring reliability and edge-case coverage.

Projects

Employee Management | Freelance | Bengaluru, India

- Created a Java MVC-based system with CRUD and search across 5+ functional modules.
- Utilized OOP, Collections, validation, and exception handling to ensure stable application flow.

FHIR Interface API and Test Cases | Toshiba Software India Pvt Ltd | Bengaluru, India

- Engineered HL7 FHIR-compliant services, integrating 10+ resources (e.g., Patient, Observation, Encounter, Practitioner, Condition) for interoperable data exchange.
- Produced documentation, traceability artifacts, and validation workflows, improving release readiness.

AI-Based Personality Prediction for Online Interview | Kongu Engineering College | Erode, India

- Designed a CNN-based prediction model combining facial features and questionnaire inputs.
- Applied K-Means clustering and the Big Five personality model to classify traits, validating results on 50+ sample profiles to ensure consistency and accuracy.

Payroll Management | AscentHR | Remote

- Delivered backend services for payroll workflows, covering salary, tax, and bonus logic across 4+ modules.
- Performed validation of 10+ endpoints, ensuring accuracy and edge-case handling.

Covid-19 Test Web Application | Kongu Engineering College | Erode, India

- Developed a Java + MySQL application with role-based workflows across 3+ modules.
- Managed 100+ records, enabling structured data processing and updates.

Publications & Conferences

- **Publication (IEEE):** Personality Prediction for Online Interview [Publication URL](#)
Developed Big Five prediction using CNN and fWHR facial analysis plus questionnaire clustering with K-Means.
- **Conference Presentation:** ICCCI 2022, Sri Shakthi Institute of Engineering and Technology
Presented “Personality Prediction for Online Interview” on Big Five prediction using CNN, fWHR, and K-Means.

Education

Kongu Engineering College (CGPA: 9.32/10)

B.E. in Computer Science and Engineering

June 2022

Erode, India

Leadership & Memberships

- Member, English Proficiency Club
- National Service Scheme Volunteer

Awards & Scholarships

- Won 12+ national-level symposium awards.
- Recognized for exceeding expectations.
- CTS Scholarship for academic excellence.
- Kongu Engineering College Merit Scholarship.
- Participated in the Cognizant Digital Nurture Program 2021.
- Sparkling Star & Learning Paladin, Workplace Skills to Leap Ahead (2021).

Certifications

- **Java Programming for Complete Beginners** | Udemy [Certificate URL](#)
- **Spring Framework for Beginners with Spring Boot** | Udemy [Certificate URL](#)

Languages

- English – Full Professional Proficiency (C1)
- German – Elementary Proficiency (A2)

Extracurricular

- Yoga, Karate (Yellow and orange belt)
