Summary

Facility / Building Services Engineer with 6+ years across residential and commercial properties. Strengths in preventive maintenance programs, vendor/AMC supervision, safety audits, and incident response. Coordinates lifts, fire systems, DG sets, transformers and common utilities with clear documentation and SOPs. Improves SLA adherence via checklists, CMMS basics, and technician coaching. Germany-ready mindset with focus on DIN, VDE, DGUV V3 and FM compliance.

Core Skills

- **Facility Operations:** Asset lifecycle, sprinklers, DG sets, transformers, management, basic CMMS, MS Office MEP coordination, shift operations, panels/DBs, emergency lighting
- **Compliance:** Audit readiness, mock drills, safety documentation, basic SLA governance, emergency response
- **Process/Tools:** PM calendars, checklists/SOPs, vendor & AMC energy monitoring
- **Systems:** Lifts/man-lifts, fire alarm & checklists/SOPs, vendor & AMC

Experience

J-Power Technology Services

2025 - present

Field Engineer – Infra Services

Chennai, India

- Responded to service calls on panels and DG sets, prioritizing critical loads to meet client SLAs on restorations.
- Performed routine tests, safety checks and recorded results; raised corrective maintenance recommendations.
- Shortened restoration times by aligning parts logistics and vendor dispatches with incident priority levels.
- Assisted commissioning and client handovers with wiring updates, labeling and asset tagging accuracy.

Vergyl Enterprises Pvt. Ltd. (TVH Apartments)

2016 - 2020

Technical Supervisor – Facility Electrical

Chennai, India

- Owned uptime and service quality for building electricals, lifts and life-safety systems in high-rise operations.
- Implemented PM calendar and spares planning; coordinated AMC vendors for lifts, fire alarms and sprinklers.
- Reduced audit nonconformities with documented SOPs, inspections and regular mock drills for compliance readiness.
- Standardized troubleshooting and handover notes to shorten incident MTTR and stabilize SLA adherence.

Updater Services (I SOFT Pvt. Ltd.)

2015

Technician – Facility Operations

Chennai, India

- Executed shift rounds; logged readings and escalated anomalies to ensure continuous building operations.
- Checked smoke detectors and emergency lights; coordinated vendor repairs to maintain life-safety readiness.
- Maintained consumables inventory and supported procurement to avoid stockouts during PM activities.
- Supported planned shutdowns and safe restoration under supervision with proper LOTO procedures.
