Dear Hiring Manager,

I am writing to express my interest in contributing to your institution's mission as an educator in Germany. With over a decade of experience in primary and middle-grade teaching, curriculum delivery, and student support, I bring a combination of subject expertise, cross-cultural communication skills, and proficiency in educational technology that aligns with the needs of diverse learning environments.

Since 2015, I have been part of St. Joseph's College in Prayagraj, delivering structured lessons to classes of 25–30 students while integrating EdTech platforms such as Google Classroom, Zoom, and Google Meet to enhance engagement and accessibility. My role extends beyond the classroom maintaining academic and behavioral records for over 100 students annually, conducting language-building workshops, and supporting learners with diverse needs through individualized instruction.

Beyond teaching, I have led creative and publication projects with K&K Publication, coordinating e-magazines, compiling book projects, and designing promotional materials. These experiences have strengthened my organizational skills, content development expertise, and ability to manage projects from concept to completion skills that can add value to your institution's extracurricular and academic initiatives.

I hold a Bachelor's and soon-to-be-completed Master's in English Literature, a Diploma in Elementary Education, and a TESOL/TEFL certification (120 hours). My training is complemented by certifications in computer concepts, NISHTHA 1.0 (elementary level), and ongoing professional development through Orient BlackSwan Teacher Training. This blend of academic grounding and continuous learning reflects my commitment to evolving with the demands of modern education.

I am particularly drawn to opportunities in Germany where inclusive education, digital learning integration, and cultural exchange are valued. My track record in creating engaging learning environments, fostering student growth, and contributing to school-wide projects positions me to make a meaningful impact in your institution.

I would welcome the opportunity to discuss how my experience and vision for student-centered education can align with your goals. Thank you for considering my application, and I look forward to the possibility of joining your team.

Sincerely,
Rechal Xavier
