With over **7 years of experience driving organic growth for B2B SaaS and enterprise service brands across the US, UK, and EU**, I bring a blend of **technical SEO expertise, strategic content planning, and cross-market execution** that aligns with global business goals.

Currently, as an **SEO & Project Manager at Datamatics**, I lead enterprise-level SEO programs focused on organic acquisition and pipeline growth. My work includes building **technical roadmaps, schema deployments, and information architectures** that deliver measurable results. By combining data from **GA4, GSC, SEMrush, and Ahrefs**, I've achieved over **30% organic traffic growth** and improved lead quality through E-E-A-T-driven authority strategies.

Previously at **Full Creative (Anywhere Works, USA)**, I led multi-site SEO portfolios serving international audiences. Through rigorous audit cycles, keyword modeling, and on-page optimization, I helped achieve **31% organic growth** and a **13% uplift in monthly recurring revenue**, while managing Agile sprints and stakeholder communication across the US, UK, and Canada.

My expertise spans **technical SEO, Core Web Vitals, schema markup, log-file analysis, topical mapping, digital PR, and analytics visualization using Looker Studio**. Beyond SEO, I collaborate closely with product, UX, and engineering teams to align content architecture with business goals and search intent.

Holding a **Bachelor of Engineering in Computer Technology** from **Walchand Institute of Technology**, I blend analytical and creative problem-solving to build scalable, sustainable search ecosystems. My certifications in **Google Analytics (GA4)** and **Advanced Technical SEO** reinforce my data-driven approach to digital strategy.

Having worked with **global teams and clients across the EU**, I am eager to continue my professional journey in **Germany**, leveraging my **B1-level German proficiency** and passion for multilingual SEO in competitive European markets. I am confident that my technical acumen, leadership experience, and international exposure will contribute meaningfully to your organization's growth.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can add value to your team in Germany.

Warm regards,
Rushikesh Pise
