Dear Hiring Manager,

I am applying for roles in social listening, media intelligence, and communications analytics in Germany. I have 12+ years in PR distribution, media monitoring, and client delivery, and I specialize in turning unstructured coverage into clear, stakeholder-ready insights. I focus on reliable execution, measurable outcomes, and documentation that scales for global teams.

Across Cision, Intrado, Infosys, Nasdaq, and Thomson Reuters, I have supported high-volume distribution and monitoring workflows end to end. I design and refine queries, align taxonomy and sentiment rules, stabilize trend reads, and package findings as concise weekly briefs that inform decisions. I maintain SLA discipline, manage cases proactively, and escalate with crisp defect notes so bottlenecks are resolved early.

My toolkit spans IRIS and OMC for order creation and newsroom posts, PR monitoring platforms including Notified, and adjacent systems such as Salesforce and Adobe Experience Manager. I am comfortable standardizing HTML and XHTML for publisher-ready handoffs, and I build reporting in Tableau and Excel that reduces manual clean-up and improves adoption. I value precision and recall in listening queries, de-duplication for consistent volumes, and a simple narrative that connects drivers and detractors to actions.

I am EU-ready and GDPR-aware. I bring a service mindset, strong communication, and a steady hand during incidents. In your team I will contribute predictable delivery, cleaner datasets, and reporting that leadership can trust. Since I have a Chancenkarte visa, I am available for interviews at short notice and open to relocation to Germany. Thank you for your time and consideration.

Sincerely,

Manoj (Sibi) Mogan
