Summary

Social listening and media intelligence professional with 12+ years across PR distribution, media monitoring, and client delivery. Transforms unstructured coverage into stakeholder-ready insights for marketing & communications. Builds precise queries, normalizes datasets, and packages findings in dashboards and executive briefs. Comfortable with IRIS/OMC, PR platforms, Salesforce, AEM, HTML, Tableau, Power BI, and Excel for repeatable reporting.

Core Skills

- **Social Listening:** Query design, Boolean logic, taxonomy, sentiment calibration
- **Media Intelligence:** Coverage analysis, message pull-through, SOV, competitive tracking
- **Data & Reporting:** Data cleaning, classification, QA, insights narratives, stakeholder decks
- **Tools:** MediaMiser, IRIS, OMC, Tracx, PR/Notified platforms, Mymedia info, Salesforce, AEM, HTML/XHTML, Tableau, Excel
- **Process:** SLAs, case tracking, knowledge base upkeep, cross-functional collaboration
- **EU Readiness:** GDPR awareness, DACH media basics, localization workflows

Experience

Cision (PR Newswire)

October 2022 – Present

Customer Content Specialist

Remote

- Deliver accurate PR distributions & newsroom posts under tight SLAs, steward clean handoffs to publishers.
- Tune templates, preflight checks, query logic, and HTML/XHTML standards across IRIS/OMC, Salesforce, and AEM.
- Reduce rework 20%, raise signal-to-noise 15%, and cut edit time 5 min/order across peak days.
- Maintain case tracking to keep SLA adherence 98%, document KB updates and defect notes for reuse.

Intrado

August 2017 – September 2020

Senior Client Service Delivery Analyst

Nagercoil, India

- Owned communications insight packs blending editorial & social signals for business stakeholders.
- Drafted functional notes and acceptance checks, built HTML visual templates for report delivery.
- Stabilized sentiment reads and trend lines via curated keywords and de-duplication practices.
- Improved clarity of weekly briefs, accelerated decisions by surfacing drivers and detractors succinctly.

Infosys (Social Media Monitoring for Apple)

February 2017 – August 2017

Process Specialist

Bangalore, India

- Monitored high-volume channels, tracked risk mentions and trend shifts aligned to launch calendars.
- Produced weekly summaries from third-party tools, refined exclusions to improve relevance.
- Lifted team hit-rate via tighter keyword lists, QA checks, and consistent annotation guidance.

Nasdaq

January 2014 – February 2017

Client Service Delivery Analyst

Nagercoil, India

- Supported Notified PR suite users across monitoring, contacts, distribution, and measurement.
- Researched filings and patent activity, compiled compact competitive summaries for account teams.
- Improved workflow comprehension with concise how-tos and reproducible steps for analysts.

- Guided customers on database search strategies, resolved access & usage issues within SLAs.
- Managed account set-ups and renewals, maintained accurate records and usage guidance.
- Raised first-contact resolution through structured troubleshooting and documentation.

Projects

Coverage Theme Classification Prototypes

- Framed problem to auto-tag coverage themes to support consistent downstream reporting across weekly reads.
- Built light prototypes using Naive Bayes and SVM, exported tags for ingestion into reporting pipelines.
- Enabled reusable labels for insights teams, improved handoff quality and reduced manual classification effort.
