Summary

Lead backend engineering with 5+ years of experience, delivering stable services and clear interfaces. Aligned roadmaps with product and operations to ship outcomes that serve users and the business. Simplified complex problems into maintainable designs and dependable systems. Raised code quality through thoughtful reviews, disciplined testing, and pragmatic standards. Strengthened teams through crisp communication, predictable delivery, and shared ownership.

Core Skills

- **Domains & Soft Skills:** Data Migration, Data Analysis, Automation, Leadership, Communication, Critical Thinking, Problem Solving
- **Programming:** Python, SQL
- **BI & Reporting:** Tableau, Power BI
- **Data Platforms:** Snowflake, MySQL, Microsoft SQL Server, SAP HANA
- **Cloud & Dev:** AWS, Eclipse, JDK, Apache Tomcat, Servlet API
- **Big Data:** dbt, Apache Hive, PySpark

Experience

Accenture Technology Solutions Pvt. Ltd.

February 2023 – Present

Application Development Analyst

Gurgaon, Haryana

- Led development of data migration and analytics deliverables across multiple client initiatives.
- Built Snowflake models with dbt; managed multi-environment deployments and tuned warehouse performance.
- Delivered Tableau and Power BI dashboards from requirements to release with versioned artifacts.
- Reduced query runtimes and stabilized pipelines through indexing, caching patterns, and job orchestration.

Cognizant Technology Solutions Pvt. Ltd.

August 2020 – January 2023

Associate

Chennai, Tamil Nadu

- Owned database performance for high-usage workloads supporting migration programs.
- Diagnosed and resolved SQL Server bottlenecks; optimized queries, indexes, and execution plans.
- Standardized deployment procedures for data migration tasks and environment changes.
- Improved pipeline reliability by enforcing checks, monitoring, and structured change control.

Cognizant Technology Solutions Pvt. Ltd.

February 2020 – July 2020

Programmer Analyst Trainee

Pune, Maharashtra

- Supported data transformation initiatives for analytics and downstream processing.
- Built Hive and PySpark jobs to convert MySQL CSV inputs into JSON with validation steps.
- Enabled consistent datasets for consumers by enforcing data integrity and documentation.

Eckovation Solution Pvt. Ltd.

January 2020 – February 2020

Subject Matter Expert Intern

Remote (India)

- Directed and mentored a developer cohort delivering IoT and robotics assignments.
- Outlined build steps, reviewed prototypes, and enforced testing and documentation practices.
- Improved learner outcomes by standardizing project scopes and feedback cycles.

- Contributed to embedded sensor modules for product prototypes and lab evaluations.
- Modernized firmware on PIC16F877A; identified and removed defects affecting stability.
- Enhanced performance of test rigs through calibrated sensors and structured checklists.

Projects

Density-Based Traffic Light System

- Designed a signal system to prioritize lanes based on real-time traffic density for smoother flow.
- Integrated infrared sensors with PIC16F877A to capture lane occupancy and trigger timing logic.
- Implemented control routines that adjusted green cycles dynamically to reduce idle wait time.
- Validated behavior with staged traffic patterns and documented calibration for deployment readiness.

User Management Web Application

- Built a CRUD application to manage users with list, insert, update, and delete capabilities.
- Developed server-side logic using Servlets and JDBC; structured DAO layer for clean data access.
- Created normalized MySQL schemas and basic auth flows to ensure predictable operations.
- Deployed on Apache Tomcat and documented setup for reproducible local and test environments.

Maze Solver & Gesture-Based Robot

- Developed a line-following robot to navigate a maze and a gesture-controlled variant for manual control.
- Implemented sensor-driven path detection using infrared modules and motor control via L293D.
- Optimized turn logic and recovery routines to improve path stability and completion rates.
- Produced build notes, wiring diagrams, and test scenarios to streamline replication and tuning.

Education

Jaypee University of Engineering and Technology

2020

B.Tech in Electronics and Communication Engineering

Madhya Pradesh

Ebenezer Matriculation Higher Secondary School

2016

Higher Secondary

Chennai, India

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (A2)
