Summary

Senior Android Developer and Technical Lead with 7+ years of experience designing and delivering Android applications in Java and Kotlin. Strong in object-oriented design, data structures, problem solving, complexity analysis, and debugging. Experienced in Google Maps and Map My India Maps, background services for location tracking, and Firebase Cloud Messaging (FCM) push notifications.

Core Skills

- **Android Architecture:** MVVM, Clean Architecture, Repository Pattern, Modular & Scalable App Design
- **Background Processing:** WorkManager, Foreground Services, Long-running Tasks Optimization
- **Testing & Quality:** Unit Testing, Mocking (Mockito / MockK), UI Testing Strategy
- **Programming & Concurrency:** Kotlin (Primary), Java, Coroutines, Flow, Java-Kotlin Migration
- **UI Engineering:** Material Design Systems, XML-based UI, Jetpack Compose (Working Knowledge)
- **Build & Delivery:** Gradle, Build Variants, CI/CD Readiness, Release & Versioning
- **Android & Jetpack:** Android SDK, ViewModel, Room, WorkManager, Navigation Component
- **Performance & Reliability:** ANR Analysis, Memory Optimization, Crash Root Cause Analysis
- **Technical Leadership:** Architecture Ownership, Code Reviews, Mentoring, Cross-team Collaboration

Experience

Innoright Solutions LLP

December 2025 – Present

Senior Developer

Hyderabad, India

- Own Android feature delivery for maps, location tracking, offline flows, and push notifications.
- Implement REST integrations with Retrofit and Volley, build background services for GPS tracking.
- Accelerate release cycles by 20% by reusing network and storage modules across features.
- Improve engineering practices by refining coding, testing, and process workflows across the team.

L&T Technology and Services

April 2023 – December 2025

Technical Lead

Hyderabad, India

- Delivered Android modules for location-aware and sensor-driven apps with offline support in Kotlin and Java.
- Integrated cadence and speed-distance sensors, tuned threading and background work to protect UI performance.
- Improved responsiveness and reduced UI jank by 25% during continuous tracking and map updates.
- Standardized debugging with ADB and Logcat, cutting defect triage and fix time by 30%.

L&T Smart World & Communication

November 2022 – March 2023

Senior Android Developer

Hyderabad, India

- Built public safety mobile workflows for field officers with maps, offline access, and role-based navigation.
- Connected UI to REST services with robust JSON parsing, validation, and XML-based layouts in Java.
- Reduced production defects by 20% through root-cause fixes, regression validation, and performance tuning.
- Enabled faster field updates for 500+ users via location tracking services and notification-ready flows.

WinC it services pvt ltd

June 2021 – November 2022

Senior Android Developer

Hyderabad, India

- Enhanced Android apps with reliable networking, local persistence, and notification-driven user journeys.
- Implemented SQLite and SharedPreferences storage, optimized media loading using Glide and Picasso caching.
- Improved offline task completion by 35% by hardening caching, sync, and error-handling behavior.
- Stabilized multi-version compatibility, reducing crash reports by 15% across Android OS releases.

*Android Developer**Hyderabad, India*

- Developed end-to-end Android features for consumer and enterprise apps across UI, APIs, and storage.
- Integrated Google Maps and background GPS tracking, implemented JSON and XML parsing for REST and SOAP.
- Delivered faster feature turnaround by 20% through reusable UI components and shared networking layers.
- Improved release stability by lowering escaped defects by 15% through testing and debugging discipline.

Projects

TSCOP (Java, Android SDK, REST)

- Built Android app to equip frontline officers with role-based access to police databases and tools.
- Developed UI, tested features in Java on Android SDK, and integrated REST services in a 2-person team.
- Improved service delivery by enabling 24/7 mobile access to applications for field operations.

CCTNS 2.0 (Java, Android SDK, REST)

- Contributed to e-Governance policing platform covering FIRs, investigations, challans, and citizen services.
- Implemented UI, coded and tested Java modules on Android SDK, and integrated REST services in a 2-person team.
- Enabled pan-India search and data sharing across police, courts, prisons, forensics, and prosecution.

Epetty Case (Java, Android SDK, REST)

- Delivered Android app to support smart policing workflows and improve field duty execution for officers.
- Designed UI, coded and tested Java features on Android SDK, and integrated REST services in a 2-person team.
- Enabled faster public service by providing mobile access to databases and role-specific applications.

HawkEye Ultra (Kotlin, Android SDK, REST)

- Built citizen-policing mobile app to keep citizens connected with Telangana Police for responsive support.
- Developed UI, coded and tested Kotlin features on Android SDK, and integrated REST services in a 2-person team.
- Improved citizen engagement by enabling always-on access to police touchpoints via mobile workflows.

TIAA (Java, Android SDK, Google Maps)

- Built a GPS-based fitness tracking app for walking, running, and cycling with a leaderboard and privacy controls.
- Implemented Java and XML UI with SQLite offline mode, background services, and push notifications via cloud APIs.
- Improved activity tracking by calculating distance, speed, average speed, and time, including offline usage.

3M Cloud (Java, Android SDK, QR Workflows)

- Developed employee experience app for discovering events, schedules, and workplace activities.
- Implemented Java and XML UI with PHP, JSON parsing, SQLite and MySQL, added maps and QR check-in flows.
- Improved event participation using QR-based registration and instant QR coupons for snacks, drinks, and meals.

Education

DRK College of Engineering and Technology (JNTUH)**2018***B.Tech in Civil Engineering**Hyderabad, India***Languages**

- English - Full Professional Proficiency (C2)
- German - Intermediate Working Proficiency (B1)
