Summary

ISTQB-certified Senior Software Test Manager with 6 plus years of experience in automotive embedded software testing for airbag ECU programs. Experienced in verification and validation across the full test lifecycle, from early requirement understanding through test execution and release support. Hands-on in both bench and HIL environments, with a consistent focus on quality and defect identification. Supported multi-OEM programs across Korea, Japan, and Europe regions.

Core Skills

- **Main Responsibilities:** Requirement review/analysis (SRS), test specifications (SRTP), test design
- **Domain Modules:** Scrap/EOL, deployment logic, SWITCH, crash output, AWL, sensor, FBL
- **Diagnostics:** CAN diagnostics/communication, Event Data Record, fault management, error handler, IMU
- **Tools & Scripting:** CANoe, CANalyzer, PTC/IMS, Infineon mem tool, WinIDEA, C, CAPL basics, Java script
- **Testing Types:** Manual, automation, regression, smoke, confirmation, HIL
- **Diagnostics & Standards:** CAN protocol, UDS ISO-14229, V-Model, STLC

Experience

Continental Automotive Components India Pvt. Ltd.

September 2022 – Present

Software Test Manager & Senior Software Test Engineer (Verification and Validation)

Bengaluru, India

- Own verification and validation for airbag ECU, deliver 95% requirement coverage across 10+ modules per release.
- Review SRTP and test cases, automate 40% regression via scripting and tool invocation.
- Execute bench/HIL including flashing, detect 25+ defects per release, and confirm fixes with owners.
- Review test specifications and reports, estimate effort to support planning for 3-5 engineers.

Veoneer India Pvt. Ltd.

January 2018 – September 2022

Senior Software Test Engineer (Verification and Validation)

Bengaluru, India

- Delivered module-wise validation, executed 1,000+ test cases and supported confirmation with owners.
- Reviewed SRS, wrote SRTP and designed tests, automated 30% scenarios using tool invocation.
- Ran manual and regression testing, including flashing, raised 20+ defects per cycle with evidence.
- Accelerated issue closure by clarifying defects early and updating test reports for 10+ stakeholders.

Projects

OEM Programs (Car Airbag ECU Software)

- Contributed to HKMC (Hyundai, Kia) and MAZDA OEM programs across Korea and Japan regions.
- Supported VW Group programs (Volkswagen, Audi, Bentley, Lamborghini, Porsche) for Europe region.

Education

BLDEAs College of Engineering & Technology

2013 - 2017

Bachelor's Degree in Electronics and Communication Engineering

Bijaypur, India

Certifications

- ISTQB Certified Tester (CTFL), 2021

Languages

- English - Proficiency Level - C2
- German - Proficiency Level - A2
