Dear Hiring Manager,

I am writing to express my interest in the position of Senior Test Engineer within your organization in Germany. With over 5 years of hands-on experience in manual and automation testing of web-based applications, I bring a strong technical foundation, collaborative spirit, and proven expertise in delivering high-quality digital solutions.

Currently working at Movate, I lead testing efforts for the Estee Lauder Companies Inc. (ELC), supporting 20+ global e-commerce applications across multiple regions. My responsibilities include analyzing business requirements, designing robust test plans, executing 200+ functional and regression test cases, and ensuring defect-free deployments across desktop and mobile platforms. I have successfully managed weekly regression cycles, utilized Jenkins for continuous integration, and worked extensively with Bitbucket for version control, contributing to seamless product delivery for internationally recognized brands.

My previous role at Testroid involved testing CRM functionalities such as customer data management, follow-up tracking, and quotation generation, where I automated key scenarios to improve test efficiency and reduce manual workload.

Key tools in my technical toolkit include Playwright, Jira, Jenkins, Zephyr, GitHub, and I am proficient in Core Java for automation scripting. I have consistently demonstrated a deep commitment to product quality, collaborative problem-solving, and maintaining efficiency in Agile environments.

I hold a Master of Computer Applications from Srinivas Institute of Technology, Mangalore, where I developed a strong academic foundation in software engineering, application development, and testing methodologies.

I am passionate about delivering software that meets both technical and user expectations and am enthusiastic about contributing to innovative projects in Germany. I believe my hands-on experience, international project exposure, and drive for quality assurance will be a valuable asset to your team.

Thank you for considering my application. I look forward to the opportunity to further discuss how I can contribute to your organization's success in Germany.

Warm regards,
Chaithanya Rai
