- **Databases:** MongoDB, Relational databases (SQL), PostgreSQL, MySQL
- **Backend Development:** REST API development, MVC patterns, NodeJS, ExpressJS
- **Dev Tools:** VS Code, Git, GitHub, Postman, Firebase, GatsbyJS, Postman, Netlify

Experience

Phenomtec Solutions Pvt Ltd

August 2021 – Present

Software Developer

Edappally, Kerala, India

- Own end-to-end delivery for web apps to meet business goals for EU/APAC stakeholders in Agile sprints.
- Engineer ReactJS applications, modeled schemas, optimized SQL, and secured endpoints with validation.
- Develop React/Vue UIs with TypeScript, improved first-load and Lighthouse scores using lazy load and splitting.
- Increase delivery speed via code reviews and test automation, reduced regression escapes across releases.

Bizface Solutions Pvt Ltd

January 2020 – October 2020

Data Analyst

Trivandrum, Kerala, India

- Developed and implemented data mining processes to extract and analyze large datasets from multiple sources, ensuring data accuracy and reliability.
- Performed data exploration, cleansing, and validation to support analytical reporting and business decision-making.
- Assessed data quality and collaborated with cross-functional teams to enhance data collection methods and align outputs with business requirements.

Spectrum Softtech Solutions

June 2019 – September 2019

Software Developer (Intern)

Ernakulam, Kerala, India

- Developed and tested Java-based applications, implementing core OOP concepts and debugging techniques to improve functionality.
- Assisted in designing and integrating backend logic using Java frameworks to support application workflows and data processing.
- Collaborated with the development team to write clean, efficient, and maintainable code following best software engineering practices.

Projects

Appetite POS — Web Application

- Developed a cloud-based POS software solution for restaurants, cafés, and food outlets to streamline sales, billing, and order management.
- Implemented a centralized back-office web application to manage menus, outlets, access rights, and business configurations across multiple locations.
- Designed dashboards and real-time reporting modules to provide instant insights into sales performance and outlet operations.

Share Car — Android Application

- Delivered mobile booking and pooling for taxi services to streamline rider workflows.
- Integrated secure API calls, routing, and local storage, optimized UX for mid-tier devices.
- Reduced booking friction and improved retention through reliable flows and error handling.

Education

Mahatma Gandhi University

June 2016 – March 2020

B.Sc. in Computer Science

Kerala, India

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
