Summary

ETL and data engineering lead with 10+ years across banking, logistics, and public sector. Specializes in IBM DataStage and IBM Cloud Pak for Data upgrades, GCP BigQuery warehousing, and Astronomer Apache Airflow orchestration. Delivers resilient incremental loads, tighter SLAs, faster batch windows, and audit-ready releases for EU/USA programs. Experienced in release governance, incident RCA, parity validation, and team training.

Core Skills

- | | | |
|---|---|---|
| • ETL Leadership: migration strategy, cutover planning, playbooks, stakeholder alignment | • Orchestration: Astronomer Apache Airflow, schedules, SLA tracking, incident response | • Performance: profiling, tuning, partitioning, parallelism, resource governance |
| • Platforms: IBM DataStage 11.5/11.7, IBM CP4D 5.0, Teradata, Oracle, PostgreSQL, BigQuery | • Quality & Controls: validation frameworks, Platinum parity checks, restart/recovery, audit readiness | • Governance: release planning, UrbanCode deployments, documentation, training |

Experience

- | | |
|---|------------------------------------|
| Tech Mahindra | June 2024 – Present |
| <i>Tech Lead</i> | <i>Remote</i> |
| <ul style="list-style-type: none">• Lead migration of DataStage ETL pipelines from IBM IIS 11.7 to IBM CP4D facilitating migration of data warehouse and database from.• Engineered incremental patterns, contract tests, and Airflow runbooks across a 5–8 engineer delivery pod.• Lifted first-pass success to 99.5%; cut batch windows and reduced manual restarts• Standardized reviews and hardened transforms; lowered QA defect leakage and accelerated onboarding. | |
| Jaitra Technologies (Bank ABC, Egypt) | September 2023 – March 2024 |
| <i>Senior Developer</i> | <i>Remote</i> |
| <ul style="list-style-type: none">• Migration of DataStage jobs from DS 11.5 to 11.7 to different environments (Dev/QA/Prod).• Tuned regressions; executed Platinum file/DB parity checks; led incident RCA and prevention measures.• Stabilized long-runners up to 35% faster; restored SLAs within same cycle for priority streams.• Documented runbooks and validations enabling repeatable releases and audit-ready evidence across envs. | |
| Altimetrik (Client: FreightVerify) | September 2022 – May 2023 |
| <i>Data Engineer</i> | <i>Remote</i> |
| <ul style="list-style-type: none">• Coordinated DS 11.5 install and program upgrade to 11.7 supporting logistics analytics pipelines.• Resolved environment gaps; tuned schedules and job settings; automated validation summaries for sign-off.• Shortened nightly processing by 25% while improving predictability of downstream loads.• Aligned cross-team readiness for upgrade waves; ensured stable post-cutover batch operations. | |

Cognizant (Royal Bank of Canada)

November 2021 – July 2022

Senior Associate

Remote

- Governed compliant releases for banking ETL with complete documentation and controlled deployments.
- Managed UrbanCode pipelines, standardized RMT requests, and maintained unit tests and artifacts.
- Reduced release rollbacks by 20%; lowered cutover risk and unplanned downtime.
- Supported audit gates across environments with consistent approvals and traceable evidence.

Crown Solution (TCS payroll; USAA)

August 2020 – November 2021

ETL Engineer

Remote

- Delivered consistent DS jobs and marts for multi-source banking and insurance datasets.
- Enforced design patterns; built extractions and dimensional loads with robust recovery controls.
- Improved stability of scheduled runs; reduced manual interventions across critical streams.

Magna Info Tech (TCF Bank)

June 2019 – April 2020

ETL Developer

Remote

- Built end-to-end DS ETL flows including incremental jobs and MDM input generation.
- Engineered extraction, transform, and load steps aligned to target models and SLA targets.
- Enabled reliable MDM feeds; reduced reprocessing waste during daily cycles.

Alpharithmetic Technologies

May 2014 – May 2019

DataStage Developer

Remote

- Implemented DWH/MDM pipelines for UK retail and public sector programs.
- Automated FTP transfers across environments to streamline promotions and releases.
- Increased transfer reliability; lowered manual handling during scheduled moves.

Education

Annai College of Arts & Science

B.Sc. in Computer Science

India

Certifications

- IBM DataStage (internal)
- Google Cloud Professional Data Engineer (in progress)

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
