Dear Hiring Manager,

I am writing to express my interest in the **SAP MDG Specialist / Technical Lead** role at your organization. With over **8 years of experience in SAP Master Data Governance** and **4 years in ABAP and Web Dynpro development**, I bring a proven track record of delivering stable, audit-ready master data solutions and improving governance frameworks for global enterprises.

In my current role at **Utopia Global (Prometheus Group)**, I lead MDG design, BRFplus rules configuration, and workflow governance across MM, BP, FI, and EAM domains. I have successfully stabilized data replication using DRF and SOA, tuned feeder classes and UIs to boost system performance, and implemented quality gates that reduced post-go-live tickets significantly. My hands-on expertise spans **data modeling, UI customization, CBA, and API-based integration**, enabling faster adoption of S/4HANA programs.

I am passionate about optimizing master data processes, mentoring teams, and aligning technical solutions with business goals. My strong foundation in **OOABAP, BADIs, and performance tuning** equips me to troubleshoot and enhance complex MDG systems.

I am eager to contribute to your digital transformation initiatives and ensure your MDG landscape delivers high-quality, scalable master data solutions. I would welcome the opportunity to discuss how my background and skills align with your requirements.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team's success.

Sincerely,

Sunil Ganesh A
