Dear Hiring Manager,

With 7+ years leading store operations and a broader background in retail and customer service, I specialize in inventory accuracy, replenishment planning, and visual merchandising that consistently lift on-shelf availability, reduce shrink, and improve sell-through. I bring a hands-on, KPI-driven approach and the discipline to build simple SOPs that teams actually use.

At Book Box Stationery, I improved on-shelf availability to 98% and cut stockouts by 35% by setting min-max thresholds and running daily gap scans. I drove a 10% basket-size uplift by maintaining planogram compliance and seasonal end-cap storytelling, while reducing shrink to 1.5% through BOH organization, exception reporting, and tighter controls on high-risk SKUs. I compressed receiving and put-away to under six hours per delivery, easing back-room congestion by 40%. My Excel reporting on OSA, variances, and RTV enabled faster vendor actions and shortened lead times by two days.

I operate comfortably across the full retail rhythm: cycle counts, root-cause on variances, SKU rationalization, store audits, and hygiene and safety compliance. I am fluent with POS and barcode workflows and build practical, audit-ready SOPs that standardize performance across shifts. Earlier, as a franchisee at Peter England, I balanced service quality with cost control, team coaching, and conflict resolution skills that help me keep stores stable during peak trade and change.

I would welcome the opportunity to bring this execution focus and KPI mindset to your company, helping your teams improve availability, reduce waste, and convert more walk-ins. I am ready to join immediately and open to relocation. I have a valid German Opportunity card (Chancekkarte Visa). Thank you for your time and consideration.

Sincerely,

Mashood AP
