

KAVYA M

Bengaluru, India (Open to relocate to Germany)

☎ +91 91136 77934 ✉ kavyamuniswamappa30@gmail.com  [linkedin : KAVYA M](#)

Summary

Clinical Embryologist with end-to-end IVF bench experience across andrology and embryology: oocyte screening/denudation, ICSI/PICSI, embryo grading/culture, vitrification/warming, and ET support. Builds QA/QC discipline, traceability, and clean documentation in multi-site settings; collaborates with clinicians and mentors trainees. Aligned to ESHRE best practices; open to opportunities in Germany.

Core Skills

- | | | |
|--|---|--|
| • Andrology: WHO semen analysis, morphology/motility, prep for IUI/ICSI, DFI, TESA/PESA | • Cryopreservation: Oocyte/embryo vitrification, warming, survival assessment, labeling discipline | support, dish/media prep, LIS/data entry, incident documentation, chain-of-custody |
| • Embryology: Oocyte screening/denudation, conventional IVF, ICSI/PICSI, embryo grading (D2-D6), Laser Hatching during ET | • QA/QC & Compliance: SOPs, logs, equipment checks/calibrations, inventory control, traceability, CAPA | • Equipment/Platforms: Micromanipulators (Hariomed/Narishige/RI), incubators, laminar flow hoods, centrifuges |
| • Operations & Data: ET/OPU | | |

Experience

The Rao Fertility Foundation (A unit of Salem Polyclinic)

February 2025 – Present

Embryologist

Salem & Bengaluru, India

- Deliver full-cycle support across OPU, denudation, ICSI/PICSI, vitrification/warm, grading, and ET within SOPs.
- Standardize QA/QC logs, equipment checks, and consumables; enforce traceability and documentation rigor.
- Coordinate timings with clinicians; mentor juniors on safe handling and LIS data accuracy for multi-site ops.
- Stabilize daily throughput for 3 OPU–ICSI cases/day while preserving sample integrity and hygiene .

SpOvum Technology Private Limited

February 2024 – February 2025

Embryologist

Bengaluru, India (Multi-site Deputations)

- Owned OPU, denudation, ICSI/PICSI, vitrification/warm, grading; support ET across partner centers under shared SOPs.
- Implemented pre-procedure checklists and labeling; drove inventory control and deviation prevention programs.
- Mentored junior embryologists and standardize documentation; improve daily turnaround and case readiness .
- Operated single-handed up to 3 OPU–ICSI/day; maintain labeling discipline and clean audit trails .

Mannat Fertility Clinic

December 2023 – February 2025

Embryologist

Bengaluru, India

- Executed OPU, Denudation, ICSI/PICSI, vitrification/warm, and grading; supported ET preparation and documentation hand-offs.
- Sustained lab readiness through equipment calibration, dish/media prep, and stock reconciliation cadence.
- Aligned timing and records with clinicians; maintain incident logs and chain-of-custody compliance.

Nova IVF

January 2023 – November 2023

Trainee Embryologist

Pondicherry, India

- Support semen analysis/prep, cryopreservation/thaw; assist OPU, denudation, IVF/ICSI/PICSI bench routines.

- Maintain QA/QC records and inventory; perform LIS data entry and single-handed lab upkeep under supervision.
- Handle up to 2 OPU–ICSI/day supervised; apply standardized grading and labeling discipline.

Nova IVF

July 2022 – December 2022

Trainee Embryologist

RR Nagar, Bengaluru, India

- Complete rotation across andrology and embryology with vitrification and thaw under SOP guidance.
- Reinforce hygiene, labeling, and documentation; support dish/media prep and equipment readiness.
- Contribute to ET and OPU day setup; follow chain-of-custody and sign-off gates for accuracy.

Nova IVF

May 2022

Internee

Lucknow, India

- Observe/practice andrology, IVF/ICSI, vitrification/thaw, ET setup, and QA/QC procedures in live clinic workflows.
- Support data capture and documentation; maintain labeling standards under supervision.
- Assist senior embryologists on procedure staging and records; follow incident reporting discipline.

Janisthaa Fertility Center and Hospital

February 2022 – March 2022

Internee

Bengaluru, India

- Pursue project on fertilization rate and embryo quality in poor ovarian reserve cohorts (IVF/ICSI).
- Support andrology bench work, QA/QC logs, and lab maintenance under SOP-compliant supervision.
- Assist documentation and data entry; uphold labeling standards and traceability protocols.

Projects

Fertilization Rate and Embryo Quality in Poor Ovarian Reserve Cohorts (IVF/ICSI) Bengaluru, India February 2022 – March 2022

- Define study objective to assess fertilization and embryo quality in poor ovarian reserve patient cohorts.
- Collect and structure case data; apply standardized grading; document IVF/ICSI method notes and conditions.
- Analyze trends across cycles; summarize observations for lab knowledge base and continuous improvement.

Education

Asia Pacific Institute of Clinical Embryology & Pre-Implantation Genetics

2020 – 2022

M.Sc. Clinical Embryology

Mysuru, India

Alva's Degree College (Mangalore University)

2018 - 2020

B.Sc. Microbiology with Chemistry & Zoology

Mangalore, India

Certifications & Continuous Learning

- ISAR (Conference participation) – *Selected sessions*
- ACE e-Summit – *Selected sessions*
- International IVF Initiative (I3) – *Selected sessions*
- IHERA – *Selected sessions*

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
