Summary

Senior Product Designer specializing in AI UX and agentic workflows across SaaS, enterprise, and consumer products. Owns end-to-end UX (research, IA, flows, prototyping, usability testing, design systems) and partners closely with AI engineers and PMs to deliver measurable usability, speed, and adoption gains. Strengths include prompt-led interaction design, AI-assisted prototyping, accessibility-first design, Agile delivery, GDPR/DSGVO compliance, and OKR alignment. Trained through IIT Bombay's UX program, open to EU roles.

Core Skills

- **UX Design:** User flows, interaction design, information architecture, design systems, heuristic review (UX, UI, HCI, UXR).
- **Research & Testing:** Stakeholder and user interviews, journey mapping, usability testing, A/B testing.
- **AI UX:** Agentic workflows, prompt patterns, orchestration thinking, ethical and privacy-aware AI design (LLM, SaaS).
- **Prototyping & Handoff:** Figma, Adobe XD, Miro, design tokens, developer-ready assets.
- **Standards & Access:** WCAG 2.1, ISO 9241-210, GDPR/DSGVO, accessibility-first design practices.
- **Data, Outcomes & Collaboration:** Use product analytics to measure task success, run experiments, collaborate cross-functionally, and deliver within Agile, OKRs, and stakeholder review cadences.

Experience

Applied AI Consulting (Orphix – AI-powered UX platform)

September 2020 – Present

AI Product Designer

Pune, India

- Lead end-to-end AI UX for Orphix platform, spanning research, IA, wireframes, prototypes, usability, and developer handoff.
- Pioneer agentic AI design workflows and prompt-led patterns that accelerate design output 10x with WCAG-ready consistency.
- Define product vision, UX strategy, and roadmap, partner with AI engineers to embed advanced LLM capabilities into design systems.
- Validate product-market fit via usability tests and pilot programs with 20+ designers, advocate AI UX best practices.

Independent Projects (Consultant)

January 2018 – August 2020

UI/UX Designer & Web Designer

Pune, India

- Delivered UX/UI for 12+ client products across mobile apps, SaaS dashboards, and responsive web experiences.
- Conducted interviews, journey maps, wireframes, and prototypes, standardized shared assets and reusable design libraries.
- Improved conversion and retention 20–30% and cut onboarding drop-off 15% through analytics reviews and usability testing.
- Shipped multi-release programs on schedule, boosting design productivity 35% via component-driven UI systems.

Projects

Orphix (AI-powered UX platform) — Pune, India

- Defined agentic workflows to accelerate design output while preserving brand alignment and accessibility standards.
- Designed prompt-led interaction patterns and review loops, prototyped end-to-end scenarios in Figma and Framer.
- Reduced p95 task time by 40–50% and de-risked builds through validated flows and IA decisions.

Education

Indian Institute of Technology (IIT) Bombay	2022
<i>Master’s Program in UX Design</i>	<i>India</i>
Nagpur University	2015
<i>MBA (HR & Operations)</i>	<i>India</i>
Nagpur University	2013
<i>B.Com & Computer Application</i>	<i>India</i>

Certifications & Awards

- IBM Enterprise Design Thinking Practitioner (2023)
- Interaction Design Foundation (IxDF) AI-Powered UX Design (2023)
- IxDF Mobile UX Design: Beginner’s Guide (2022)
- IxDF Complex UI Design: Practical Techniques (2022)
- IxDF Visual Design: The Ultimate Guide (2022)
