Summary

Radiology technologist with 6+ years at Medall Diagnostics delivering safe, high quality diagnostic imaging. Operates X ray and mammography, assists CT/MRI workflows, and applies ALARA with infection control. Partners with radiologists to validate images and guide additional views; educates patients to improve cooperation. Maintains accurate records, room readiness, and daily QA checks. Germany ready with quick adoption of PACS/RIS workflows and EU documentation norms; licensed radiographer (India).

Core Skills

- **Modalities:** X ray, Mammography; exposure to Fluoroscopy, CT, MRI
- **Patient Care:** preparation, positioning, consent, safety briefings, post procedure care
- **Quality & Safety:** ALARA, radiation protection, lead shielding, QA logs, infection control, incident reporting
- **Workflow:** imaging protocols, room setup and turnover, documentation, scheduling, pre and post scan checks
- **Collaboration:** radiologist liaison, triage with nurses and physicians, cross department coordination
- **Systems:** basic PACS/RIS exposure, DICOM concepts; record keeping and audit readiness

Experience

Medall Diagnostics

Feb 2019 – Jan 2025

Radiology Technologist

Chennai, India

- Deliver safe, high quality X ray and mammography to meet physician orders while ensuring patient comfort and safety.
- Apply ALARA, lead shielding and pregnancy screening; calibrate positioning, compression and exposure per protocol.
- Reduce repeats and artefacts and sustain consistent image acceptance through QA checklists and peer review.
- Coordinate with radiologists and nurses for additional views and callbacks; keep records, QA logs and rooms audit ready.
