Dear Hiring Manager,

I am writing to express my interest in IT opportunities within your organization in Germany. With 12 years of experience in End-User Computing and IT infrastructure, I bring a proven track record of supporting and managing enterprise-level environments through modern tools and technologies.

In my current role as an EUC Engineer at Glidewell Software Services Pvt Ltd., I am responsible for managing endpoint devices using Microsoft Intune and SCCM, executing Windows OS migrations, automating routine administrative tasks with PowerShell, and supporting a mixed environment of Windows, macOS, and mobile platforms. I work closely with cross-functional teams to improve operational efficiency, enforce compliance, and support secure authentication solutions like Windows Hello for Business.

My previous experience at Capgemini and Tata Consultancy Services has equipped me with in-depth knowledge of patch management, vulnerability remediation, task sequencing, and infrastructure support for large-scale deployments. I have consistently handled enterprise environments of over 10,000 endpoints and contributed to critical initiatives involving system hardening and automation.

Academically, I hold a Bachelor's Degree from the University of Mumbai and a Diploma in Computer Hardware & Networking from M.H. Saboo Siddik Polytechnic. In addition to my formal education, I have earned multiple industry-recognized certifications including Microsoft Certified: Modern Desktop Administrator Associate, Azure Administrator Associate, Azure Fundamentals, Cisco Certified Network Associate (CCNA), and ITIL Foundation (v3).

I am highly motivated to contribute to Germany's innovative and high-performing IT sector. I am confident that my technical skills, combined with my commitment to service quality and continuous improvement, would make me a valuable asset to your team. I am open to relocation and available for interviews at your convenience.

Thank you for considering my application.

Sincerely,
Sarfaraz Ali Ansari
