

SHILPA GEETHA PARANDHAMAN

Bengaluru, India - 560043 | +919620482228 | shilpagp9622@gmail.com

Professional Summary

Software Engineer with over 7 years of experience in the Automotive Industry, specializing in Embedded Software Testing, Automation, and Release Delivery. With 4+ years of expertise in embedded software testing and 3+ years in technical leadership for release management, I have a deep understanding of SDLC, STLC, and Agile methodologies. Proficient in Autosar Integration Processes, Software ISM Releases, and CI/CD practices, ensuring seamless software integration and deployment. Additionally, have international experience, having worked onsite in Munich, Germany (Jan 2023 – Apr 2023). Technical expertise includes C, Shell Scripting, Linux, and various automotive testing tools.

Area of Expertise

Test Strategy & Planning: Designed and executed comprehensive test plans, covering unit, integration, and system testing. Release Management: Managed end-to-end software releases, ensuring on-time and high-quality delivery. Stakeholder Collaboration: Interacted with global teams and customers to drive software enhancements.	Automation & Debugging: Developed and executed automated scripts, performed static code analysis, and debugged software issues. Project Leadership: Led teams, allocated resources, and prioritized tasks to optimize project outcomes.
--	--

Technical Skills

• Languages: C, Shell Scripting • Operating Systems: Linux • Testing Tools: DLT, IOC Traces, Vector PCAN, CANoe • Automation Frameworks: Test Automation Framework (TAF), Jarvis, NERD • Debugging & Flashing Tools: IOC Traces, NEC Flasher, Teraterm, WinSCP, Wireshark • Requirement Management: Git, Gerrit, ELVIS, DOORS, IBM ALM, JIRA, AWS Server, Perforce
--

Work History

Technical Lead (Release Delivery) KPIT Technologies Pvt Ltd – India Project: BMW CCU (Control Charging Unit) • Directed a 10-member release delivery team, achieving 95% on-time delivery rate across multiple ISM release cycles. • Established release governance processes, reducing post-release defects by ~30%. • Prepared and validated Release Note Documentation, ensuring zero rollback incidents during deployment. • Performed MISCRA and Q_Checks analysis, improving compliance scores by 20% within two quarters. • Coordinated with cross-functional global teams in India and Germany, ensuring seamless delivery across 3 major milestones per year. • Mentored junior engineers in release management practices, boosting team productivity by ~25%. • Partnered with stakeholders to resolve priority conflicts and optimize resource utilization, cutting release delays by 15%.	01/2022 to Current
---	--------------------

Technical Lead (Release Delivery)

01/2023 to 04/2023

KPIT Technologies Pvt Ltd – Munich, Germany

Client: Microfuzzy GmbH, Germany

- Spearheaded software deliveries by managing customer-specific software requirements.
- Drove project execution through task prioritization and cross-functional team collaboration.
- Reviewed critical documents and release notes to ensure error-free software deployment.
- Coordinated with multiple teams to optimize project timelines and quality.

Software Engineer

09/2019 to 12/2021

Harman International Private Limited – Bengaluru

- Developed and tested infotainment system features, ensuring seamless integration and high-quality software delivery.
- Designed test plans, executed automation scripts in C# using TAF framework, and conducted regression testing.
- Configured hardware setups for standalone and automated testing environments.
- Analyzed and debugged issues, identifying root causes and collaborating with cross-functional teams for resolution.

R&D Engineer

03/2018 to 06/2019

United Telecoms Limited Private Limited – Bengaluru

- Designed and implemented software solutions for 10G and 100G Broadcom traffic network cards.
- Developed high-level applications in C for Linux-based embedded systems using Eclipse IDE.
- Conducted unit testing with SNMP server and reported software defects based on acceptance criteria.
- Provided technical inputs to enhance software design, functionality, and system performance.

Education

Bachelor's Degree in: Electronics & Communication Engineering	2017
University Visvesvaraya College of Engineering - Bengaluru, India	
Diploma in Electronics & Communication Engineering	2014
Govt. Polytechnic for Women's - Bengaluru, India
