

SUNITH KUMAR K S

Indore India | +919926143339 | sunithkumarger1985@gmail.com | Chancenkarte Visa Holder (Eligible for Germany)

Professional Summary

Polymer Engineering professional with 13.6 years of expertise in PSR, BIAS, OTR, and rubber industries. Skilled in extrusion engineering, process improvement, and defect analysis. Proven ability to lead new product development, enhance productivity, and resolve technical challenges effectively.

Skills

- | | |
|--|---|
| • Extrusion Engineering | • Process Capability Analysis |
| • CNC Operations and Programming | • Scrap and Defect Analysis |
| • Die and Insert Design | • Rubber Compounding Techniques |
| • Thermocouple Studies and Blow Point Analysis | • Cure Time Optimization |
| • Tooling and Inventory Management | • Data Analysis and Reporting (MS Excel, SAP) |
| • Process Simulation and Modeling | • Productivity Enhancement Strategies |
| • Statistical Process Control (SPC) | |

Work History

Assistant Manager, Technical Department: Extrusion 04/2013 to Current

BRIDGESTONE INDIA PVT LTD – Indore, India

- Led **15+ new size developments** for top tread, side tread, and bead filler.
- Conducted process capability studies, implementing countermeasures to resolve technical issues, reducing defect rates by **15%**.
- Managed tooling inventory and CNC operations, ensuring **100% availability** for production needs.
- Spearheaded productivity improvement initiatives, achieving a **10% increase** in output and enhancing tire performance.
- Delivered technical training to over **20 junior engineers** and technicians, fostering skill development and operational efficiency.

Senior Engineer, Technical Department: Curing PSR 07/2012 to 04/2013

JK TYRES LTD – Gwalior, India

- Analyzed online scrap and defects, achieving a **20% reduction** in PSR tire scrap rates through corrective actions.
- Conducted thermocouple studies and blow point analysis, optimizing cure time calculations for production efficiency.
- Assisted in optimizing machine settings, resulting in **improved uniformity** of cured tires.

Engineering Trainee, Technical Department 09/2010 to 04/2012

APOLLO TYRES LTD – Perambra, Thrissur

- Gained hands-on experience in tire compounding processes for bias and OTR tires, contributing to process optimization and defect reduction.

Projects

- Established a correlation between sidewall compound viscosity and Rim Centre Line Crack at CEAT TYRES LTD, Nashik.

Accomplishments

- Presented a paper on **"Edible Packaging Materials"** at a national seminar.
- Awarded **First Prize** for "Blueprint Modeling" at National Seminar TWISHA '09.
- Secured **Third Prize** in IChE quiz competition (2010).

Certifications

- **2-week training** at Rubber Research Institute of India, Kottayam

Education

Bachelor of Technology in : Polymer Engineering 2010

2010

Mahatma Gandhi University College of Engineering - Thodupuzha, India
