Summary

Business Development Manager with 8+ years of experience in renewable energy and solar EPC. Expertise in government tendering, techno-commercial bid management, and client acquisition across utility-scale and rooftop solar projects. Strong track record in driving bid strategy, managing stakeholder relationships, and delivering large-scale project wins. Skilled in financial evaluation, contract negotiation, and cross-functional coordination.

Core Skills

- **Business Development & Sales:** Lead Generation, Client Acquisition, Pipeline Management, Key Account Management, Marketplace Growth, Campaign Execution
- **Tendering, Bidding & Contracts:** RFQ, RFP, Bid Submission, Techno-Commercial Evaluation, PPA, LOI, LOA, Contract Negotiation, Agreements
- **Financial & Business Analysis:** ROI, IRR, Cost Estimation, BOQ, Market Research, Performance Metrics, Revenue Analysis
- **Tools & Technologies:** PVsyst, AutoCAD, RETScreen, Microsoft Excel
- **Stakeholder & Operations Management:** Client Engagement, Negotiation, Relationship Management, Cross-functional Coordination, Disaster Recovery, Business Continuity, Cost Optimization
- **Domain & Professional Strengths:** Solar PV, BESS, EPC Projects, Restaurant Operations, Inventory Control, Hospitality Exposure (Fine Dining, Cloud Kitchens, Event Hospitality), Leadership, Adaptability, Problem Solving

Experience

Zetwerk Manufacturing Business Ltd

September 2024 – Present

Business Development – Tendering and Estimation

Bangalore, India

- Drive end-to-end tendering for solar EPC projects by preparing techno-commercial bids, BOQs, and cost estimates for rooftop and utility-scale installations.
- Secure projects worth INR 2000 Cr by participating in competitive tenders and leading commercial negotiations with clients including MSPGCL and Coal India.
- Develop detailed cost models and BOQs for AC/DC systems, substations (PSS, GSS), and transmission infrastructure using industry benchmarks and technical inputs.
- Conduct vendor evaluations and procurement negotiations to optimize pricing and ensure quality compliance with industry standards.
- Strengthen bid quality by preparing PVsyst simulations, attending pre-bid meetings, and addressing technical and commercial queries.

Usolar Clean Energy Solutions Pvt Ltd

March 2023 – August 2024

Assistant Manager – Business Development

Bangalore, India

- Manage government and private sector tenders by preparing and submitting RFQ/RFP responses, techno-commercial bids, and BOQs across multiple e-procurement portals.
- Improve bid success rate by 20% through structured bid tracking, competitive analysis, and win/loss reporting for technical and financial proposals.
- Perform feasibility studies and financial analysis including ROI, IRR, and savings calculations for solar PV and BESS projects using PVsyst and AutoCAD.
- Lead cross-functional coordination across engineering, procurement, finance, and sales teams to ensure timely bid submission and project execution.
- Manage contract lifecycle including PPA review, LOI/LOA execution, payment tracking, and client negotiations to drive successful deal closures.

- Lead business development for solar projects by driving market research, feasibility analysis, and techno-commercial bid preparation for government and private tenders.
- Generate and convert leads into project opportunities by managing client relationships and coordinating sales activities across multiple regions.
- Enhance proposal quality by preparing BOMs, submitting pre-bid queries, and aligning technical solutions with client requirements.
- Strengthen market positioning by analysing industry trends, policies, and competitor strategies to support strategic decision making.
- Maintain sales pipeline and reporting by tracking client interactions, forecasts, and tender participation using structured documentation practices.

Infyenergy Sun Factory Pvt Ltd**August 2017 – October 2019***Business Development Executive – Supply Chain**Bangalore, India*

- Generate leads and manage key accounts by preparing techno-commercial proposals and responding to client requirements for solar projects.
- Support project execution by coordinating site activities, preparing BOQs, and assisting in planning and commissioning processes.
- Improve operational efficiency by developing reports, maintaining documentation, and supporting cross-functional project coordination.
- Strengthen client engagement by handling communications, resolving queries, and delivering presentations and project reports.
- Ensure administrative and process compliance by maintaining records, auditing invoices, and supporting internal operations.

Projects

20+ MWp Rooftop Solar Warehouse Project | Solar PV | PAN India

- Delivered a multi-site rooftop solar project for a leading e-commerce client by coordinating site surveys across warehouses located throughout India.
- Designed system layouts using AutoCAD and performed energy yield simulations using PVsyst to optimise system performance and capacity planning.
- Conducted financial analysis including IRR evaluation for each site to support investment decisions and project feasibility.
- Reviewed and evaluated Power Purchase Agreements (PPA) to ensure commercial viability and alignment with client requirements.
- Collaborated with cross-functional teams to align technical design, financial modelling, and project execution strategies.

Education

Rajiv Gandhi Engineering College**July 2013 – April 2017***Bachelor of Engineering in Information Science**Bangalore, India*

Awards & Honors

- Key Contributor Award (2022 – 2023)

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Proficiency (B1)
