

R. SARAVANA KUMAR

Chennai, India (Open to relocate to Germany)

☎ +91 9994872742 ✉ saravanakumarravindran8592@gmail.com  [R. Saravana Kumar](#)

Summary

Mechanical engineering professional with 9+ years of experience across machine design, production, and assembly operations. Strong expertise in special purpose machines, CAD design, and manufacturing processes. Proven ability in commissioning, BOM validation, and cross-functional coordination. Experienced in ISO documentation and production optimization. Delivers reliable engineering solutions aligned with industrial standards.

Core Skills

- **Mechanical Design & Analysis:** AutoCAD, Pro-E, ANSYS, Machine Design, 2D Drawings
- **Manufacturing & Assembly:** SPM Machines, Hydraulics, Pneumatics, Machine Assembly, Assembly Planning
- **Production Engineering:** BOM Verification, Process Planning, Fabrication Support
- **Quality & Inspection:** Vernier Caliper, Micrometer, Bore Dial Gauge, Height Gauge, Bevel Protractor, Feeler Gauge, Tolerance Validation
- **Project Execution:** Installation, Commissioning, Supplier Coordination
- **Documentation & Tools:** ISO Documentation, Inspection Reports, Primavera P6

Experience

AMET Institute of Science and Technology

August 2023 – Present

Mechanical Instructor

Chennai, India

- Deliver practical training in mechanical laboratories for Marine and Nautical cadets, improving technical competency across 100+ students annually.
- Teach core engineering subjects including Fluid Mechanics and Solid Mechanics, ensuring curriculum alignment with academic standards.
- Manage ISO documentation and departmental records, ensuring compliance with institutional and audit requirements.
- Coordinate academic schedules and inter-department activities, improving operational efficiency by 15%.
- Oversee ETO certification programs from planning to completion, ensuring timely delivery and program execution.

Al Asna Star Industries

October 2018 – February 2020

Engineer

Doha, Qatar

- Executed machine installation and commissioning for a new manufacturing facility, supporting setup of 10+ industrial machines.
- Resolved installation and material issues through coordination with engineering teams, reducing delays by 20%.
- Managed factory maintenance operations including fire safety systems and equipment repairs, improving reliability.
- Negotiated and finalized maintenance contracts, optimizing service costs and vendor performance.
- Allocated manpower for assembly and maintenance activities, ensuring timely execution of operations.

Unique Industries

October 2017 – January 2018

Design Engineer

Madurai, India

- Designed customized machines for belt manufacturing applications using CAD tools, improving design accuracy and manufacturability.
- Coordinated procurement and machining activities with vendors, ensuring timely availability of components.
- Validated machined components against drawings and tolerances, reducing rework by 15%.
- Supported assembly and commissioning activities, ensuring smooth machine installation and testing.
- Implemented design modifications based on customer feedback, improving product acceptance rates.

GH Induction India Pvt. Ltd.

April 2011 – October 2015

Assistant Engineer

Chennai, India

- Manufactured special purpose induction hardening machines, supporting end-to-end production and assembly processes.
- Inspected components using precision instruments and verified BOM and drawings, ensuring quality compliance.
- Planned assembly schedules and allocated manpower, improving production efficiency by 20%.
- Executed hydraulic and pneumatic system integration and coordinated with electrical teams for machine integration.
- Conducted testing, commissioning, and breakdown maintenance, ensuring reliable machine performance.

Aruna Alloy Steels Pvt. Ltd.

October 2009 – September 2010

Dimension Supervisor

Madurai, India

- Performed dimensional inspection of industrial valves using precision instruments, ensuring compliance.
- Identified rework requirements and validated post-rework quality, reducing defect rates by 10%.
- Prepared inspection reports and facilitated customer approvals for dispatch.
- Interpreted technical drawings to support quality control and inspection processes.

Education

AMET University

Expected April 2027

Master of Business Administration – Shipping & Logistics Management (Pursuing)

Chennai, India

Raja College of Engineering & Technology, Anna University

2002 – 2006

Bachelor of Engineering in Mechanical Engineering

Madurai, India

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Proficiency (B1)
