Role: Lead Technical Writer

Summary

Lead Technical Writer with 7+ years across experimentation, analytics, and content systems. Owns roadmaps, KPIs, and governance for internal platforms while shipping developer and admin documentation for enterprise users. Delivers information architecture, doc-as-code workflows, in-product help, and UX microcopy aligned to release and compliance needs. Partners with engineering, security, UX, and support teams to improve adoption, reduce escalations, and raise documentation quality.

Core Skills

- **Domain Expertise:** Cybersecurity & compliance, cloud, SaaS platforms, data & experimentation systems, telecom & smart licensing, AI/ML & automation
- **Technical Writing:** Admin guides, troubleshooting, runbooks, playbooks, release notes, KB articles
- **Product Management:** Roadmaps, backlog prioritization, release planning, KPIs, stakeholder alignment, governance
- **UX Writing and Information Architecture:** UI labels, error messages, help content, taxonomy, templates, style guides
- **Experimentation Platforms:** A/B testing, tracking plans, event pipelines, data quality, observability
- **Tools and Standards:** Jira, Confluence, GitHub, Figma, Postman, Swagger, DITA XML, Markdown
- **Security and Operations:** Incident and RCA, audit readiness, access reviews, change approvals, SLAs
- **Security & Governance:** Zero trust, least privilege, audit logs, access reviews

Experience

LTI Mindtree (Client: Cisco Systems)

March 2025 – Present

Technical Product Manager & Lead Technical Writer

Bengaluru, India

- Own Smart Licensing documentation and enablement for secure admin workflows across SSM On Prem and CSLU.
- Partner with product and engineering to define IA and publish docs using doc-as-code and review SLAs.
- Increase discoverability by 30% via SEO tuning, search improvements, and consistent style governance.
- Reduce support tickets by 30% by shipping runbooks, troubleshooting flows, and release updates.

Accenture Technologies Pvt Ltd

December 2022 – March 2025

Technical Product Manager (Internal Platforms / Method One)

Bengaluru, India

- Led roadmap for experimentation & analytics platforms and GenAI content automation (PPT/RFP/RFI workflows).
- Prioritized backlog in Jira, defined KPIs, data governance, and tracking standards, built observability dashboards.
- Accelerated turnaround 35% and improved adoption via feedback loops, rollout documentation, and enablement.
- Coordinated incident/RCA, change approvals, and security reviews across 10+ global product teams.

Accenture Technologies Pvt Ltd

February 2022 – December 2022

Senior Technical Writer (Reinvention Console / Security Capabilities)

Bengaluru, India

- Owned information architecture and in-product content for platform help, UI labels, errors, and release notes.
- Built doc-as-code and style guides, trained designers/engineers on UX writing and design system patterns.
- Reduced content duplication via audits, improved discoverability and consistency across global releases.
- Authored HLD/LLD, runbooks, and playbooks for security products, supported RFX responses and case studies.

Schneider Electric India Pvt Ltd

June 2021 – February 2022

Senior Technical Content Developer

Bengaluru, India

- Owned end-to-end documentation for smart grid and automation releases, from planning through publication.
- Worked with SMEs in Agile scrums and demos to produce manuals, quick starts, and validated user instructions.
- Resolved Jira escalations with 24/7 support and improved closure time by 20% across releases.
- Built a 15-year escalation repository with LLM search and improved retrieval speed by 30%.

Capgemini Pvt Ltd

November 2020 – June 2021

Technical Writer

Bengaluru, India

- Delivered technical documentation for enterprise programs and maintained DDLC workflows with SMEs and QA.
- Applied editorial QA and templates to improve clarity and consistency across multi-format deliverables.
- Reduced rework by 15% by tightening review cycles, checklists, and version control practices.
