Summary

PLM engineer with 5+ years in ENOVIA-based engineering digitisation for rail and energy clients in global delivery setups. Delivers data migration and customisation on Dassault 3DEXPERIENCE platforms using TCL, MQL, JavaScript, SQL plus batch scripting. Experienced with server-side installation of 3DEXPERIENCE 2021x and ENOVIA plus production support with incident, problem, and change management. Recognised for calm handling of critical issues, clear communication with infrastructure teams, and concise runbook documentation for support teams.

Core Skills

- **PLM Platforms:** ENOVIA V5, ENOVIA 2021x, ENOVIA VPM, 3DEXPERIENCE, CATIA V5 basics
- **Scripting & Data:** TCL, MQL, JavaScript, batch scripts, basic Java, SQL, MySQL, migration, validation
- **Service Delivery:** L2 support, L3 support, production support, incident management, problem management
- **Quality & Change:** root cause analysis, change management, release support, regression checks
- **Tools & Methods:** ticketing tools, monitoring dashboards, deployment smoke checks, runbook creation, DevOps practices, CI/CD pipelines, Git workflows, Docker basics
- **Domains & Context:** rail engineering, nuclear power, infrastructure, global delivery, ITIL-aligned operations

Experience

Accenture Technology

December 2022 – May 2025

Eng Digitization and PLM Senior Analyst

Hyderabad, India

- Led day-to-day PLM support for ENOVIA and CATIA in a rail engineering programme as senior escalation contact at L2 and L3.
- Used TCL, MQL, SQL, and batch scripts to analyse incidents in object structures, access rules, and workflows across environments.
- Coordinated with product, development, database, and infrastructure teams so fixes passed defined release and regression checks.
- Summarised ticket trends, recurring issues, and risk areas for managers through structured reports and updated support runbooks.

Accenture Technology

March 2021 – December 2022

Eng Digitization and PLM Associate

Hyderabad, India

- Joined PLM rollout stream that backed nuclear power plus infrastructure projects for a European utility client.
- Helped detail data models, lifecycle states, and security patterns required for ENOVIA 2021x templates used in the programme.
- Supported colleagues who built migration scripts and verified migrated objects, attributes, and permissions against expected rules.

Accenture Technology

September 2020 – February 2021

Trainee Software Associate

Hyderabad, India

- Entered PLM practice as trainee software associate in ENOVIA plus Exalead within the engineering digitisation group.
- Completed internal training on PLM concepts, ticket handling basics, and automation approaches used by senior staff.
- Shadowed developers on internal automation proof-of-concept work and prepared simple utilities under supervision.

Projects

Alstom Engineering and Support [DMA-GS Team] – *Support, Hyderabad, India* **December 2022 – Present**

- Provided technical support for Alstom engineering applications on ENOVIA V4, ENOVIA V5 plus CATIA V5 for rail programmes.
- Handled L2 tickets plus minor L3 enhancements in DMAGS team alongside problem management and infrastructure migration.
- Handled data migration activity from DMAGS to other contractor sites on a weekly and on-demand basis.
- Played a key role in the migration of 40+ production servers, including ENOVIA VPM upgrade and server moves.

EDF NNB Switch PLM [Data Migration Team] – *Developer, Hyderabad, India* **May 2021 – December 2022**

- Contributed to PLM solution that supported nuclear power plant implementation for EDF NNB sites in England.
- Delivered TCL, MQL, batch plus Java-based utilities that validated, cleansed, and migrated data from more than 50 legacy projects.
- Raised migration quality and reduced production defects on data issues by 25% for a 10-member delivery team.

Bedrock Automation [Accenture internal project] – *Developer, Hyderabad, India* **March 2021 – May 2021**

- Supported start of automation on 3DEXPERIENCE tools such as ENOVIA plus Exalead for internal Accenture use cases.
- Built JavaScript-based scripts that read structured input files and uploaded data into Exalead CloudView indices.
- Improved data load reliability and cut manual upload effort for a 12-member team that relied on search-driven workflows.

Education

CVR College of Engineering **2016 – 2020**

Bachelor of Engineering in Electrical and Electronics *Hyderabad, India*

Certifications

- Dassault Systèmes ENOVIA Brand Essentials
- Virtual Product Development ENOVIA training
- ENOVIA Customisation V5 Level 1
- AWS Fundamentals training at Accenture
- Exalead search platform training at Accenture
- Eggplant Automation tool

Awards

- DU-level client appreciation for successful VPM upgrade and infrastructure migration.
- Employee of the month for outstanding performance in migration of 40+ production servers.
- Client appreciation for handling critical PLM tickets and providing permanent solutions in ENOVIA environments.
- Team lead appreciation for development of TCL scripts that corrected production data issues in PLM systems.

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
